XIII. Summary of the Valuation Report and Fairness Opinion

Background:

- a. The Share Exchange Ratio for the Scheme of Amalgamation has been fixed on the basis of the Valuation Report dated September 22, 2022 issued by CA Vikrant Jain, an Independent Chartered Accountant and Registered Valuer. The valuation has been done in accordance with internationally accepted valuation standards.
- b. The computation of fair Share Exchange Ratio is given below:

Valuation Approach	Tata Steel Limited		TRF Limited	
	Value (₹/Share)	Weight	Value (₹/Share)	Weight
Asset Approach – NAV Method	91.6	0%	0	0%
Income Approach – DCF Method	N/A	0%	N/A	0%
Market Approach – MP Method	106.6	50%	169.0	50%
Market Approach – CCM Method	107.4	50%	195.2	50%
Relative Value per Share	107.0		182.1	
Fair Exchange Ratio (rounded off)	1.7			

N/A = Not Applied

- c. In case of Net Assets Value (NAV) Method, the value is determined by dividing the net assets of the company by the number of shares. The underlying asset approach represents the value with reference to the historical cost of the assets owned by a company and attached liabilities as at the valuation date. Since, the business of Tata Steel Limited ('**Transferee Company//TSL**') and TRF Limited ('**Transferor Company//TRF**') are to be continued on a 'going concern basis' and there is no intention to dispose off the assets, therefore the Asset Approach has not been considered for the valuation exercise.
- d. The discounted cash flow (DCF) method of valuation which derives the valuation of an asset based on the expected future cash flows of those assets. The projected cash flows are discounted with the weighted average cost of capital to arrive at the value. In the given transaction, the Transferee Company and the Transferor Company have a proven track record of operations, revenues and/or profitability and besides their own share prices, there are adequate number of comparable/benchmark listed companies which enable a valuation analysis based on the market approach using assets and/or earnings multiples, obviating the need for using the Income Approach. Therefore, for the valuation analysis, Income Approach has not been considered.
- e. Valuation under market price method has been arrived at basis higher of 90 trading days volume weighted average price or 10 trading days volume weighted average price in accordance with the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018.
- f. Under comparable companies multiple (CCM) method, the value of the equity shares of a company is determined on the basis of multiples derived from valuations of comparable companies. Following set of companies have been considered basis the sector, similarity in business/ product and size of the company in terms of market capitalization, operating revenue etc.:

2.	Steel Authority of India Ltd
3.	Tata Steel Limited

For Transferor Company:

1.	Firstsource Solutions Ltd
2.	Datamatics Global Services Ltd
3.	Zensar Technologies Ltd

4. We draw your attention to Note 4 to the standalone financial results which states that the ability of the Tata Steel Europe (TSE), the step-down subsidiary of T Steel Holdings Pte. Ltd. Our Opinion is not modified in respect of the above matter.

Regulations. The Board of Directors of the Company are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the standalone financial results by the Directors of the Company, as aforesaid.

6. In preparing the standalone financial results, the Board of Directors of the Company are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

8. Our objectives are to obtain reasonable assurance about whether the standalone financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial results.
9. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
 - Conclude on the appropriateness of the Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial results, including the disclosures, and whether the standalone financial results represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

The Board of Directors of the Company had considered and approved amalgamation of Tata Steel Long Products Limited ("TSLP"), Tata Metaliks Limited ("TML"), The Tinsplate Company of India Limited ("TCIL"), TRF Limited ("TRF"), The Indian Steel & Wire Products Limited ("ISWP"), Tata Steel Mining Limited ("TSML") and S & T Mining Company Limited ("S & T Mining") into and with the Company by way of separate schemes of amalgamation and had recommended a share exchange ratio /cash consideration as below:
 - a) 67 fully paid-up equity shares of ₹1/- each of the Company for every 10 fully paid-up equity shares of ₹10/- each held by the public shareholders of TSLP.
 - b) 79 fully paid-up equity shares of ₹1/- each of the Company for every 10 fully paid-up equity shares of ₹10/- each held by the public shareholders of TML.
 - c) 33 fully paid-up equity shares of ₹1/- each of the Company for every 10 fully paid-up equity shares of ₹10/- each held by the public shareholders of TCIL.

As part of the scheme of amalgamations, equity shares and preference shares, if any, held by the Company in the above entities shall stand cancelled. No shares of the Company shall be issued nor any cash payment shall be made whatsoever by the Company in lieu of cancellation of shares of TSML and S & T Mining (both being wholly owned subsidiary companies).

The proposed amalgamations will enhance management efficiency, drive sharper strategic focus and improve agility across businesses based on the strong parental support from the Company's leadership. The amalgamations will also drive synergies through operational efficiencies, raw material security and better facility utilisation.

As part of defined regulatory process, the following schemes have received approval(s) from stock exchanges and Securities and Exchange Board of India:

- i. TSLP into and with the Company.

Company have been filed and are pending with NCLT and are subject to defined regulatory approval process.

3. The Board of Directors of the Company had considered and approved the amalgamation of Angul Energy Limited ("AEL") into and with the Company by way of a scheme of amalgamation and had recommended a cash consideration of ₹1,045/- for every 1 fully paid-up equity share of ₹10/- each held by the shareholders (except the Company) in AEL. Upon the scheme coming into effect, the entire paid-up share capital of AEL shall stand cancelled in its entirety.

The amalgamation will ensure consolidation of all power assets under a single entity, which will increase system agility for power generation and allocation. It will help the Company to improve its plant reliability, ensuring steady source of power supply while optimising cost. Further, such restructuring will lead to simplification of group structure by eliminating multiple companies in similar operation, optimum use of infrastructure, rationalisation of cost in the areas of operations and administrative overheads, thereby maximising shareholder value of the Company post amalgamation.

The scheme is subject to defined regulatory approval process, which would require approval by stock exchanges and the Hon'ble National Company Law Tribunal.

4. Tata Steel Europe Limited ("TSE"), a wholly owned indirect subsidiary of the Company, has assessed the potential impact of the economic downturn in Europe caused by external factors including higher inflation, higher interest rates and supply chain disruption caused by the war in Ukraine on its future business outlook for UK and Mainland Europe (MLE) value chains.

The Board has considered reasonably possible scenarios to stress test the financial position of both the UK and MLE businesses, including the impact of lower steel margins against the Annual Plan and the mitigating actions the Group could take to limit any adverse consequences to liquidity in the annual impairment assessments.

Based on the assessment, the MLE business is expected to have adequate liquidity under all the reasonably possible scenarios considered. The outlook for Tata Steel UK Limited ("TSUK"), a wholly owned indirect subsidiary of TSE, however, is expected to be adversely impacted towards meeting its liquidity requirements and accordingly with respect to its ability to continue as a going concern. In response to the challenging market and business conditions, TSUK continues to implement various measures aimed at improving its business performance and conserving cash including but not limited to ensuring adequate liquidity, if required, through available financing options, management of working capital, implementation of cost reduction measures and discussions with the UK Government to seek adequate support for transition to Green Steel as part of its decarbonization strategy. The progress of discussions with the UK government is also being monitored closely given that based on the initial and subsequent discussions it remains uncertain whether adequate support for the decarbonisation strategy would be agreed. Given the risks and challenges associated with the underlying market and business conditions, the uncommitted nature of available financing options and the uncertainty with respect to whether adequate government support would be agreed, there exists a material uncertainty surrounding the impact of such adversities on the financial situation of TSUK.

The financial statements of TSE have been prepared on a going concern basis recognising the material uncertainty in relation to TSUK.

 - are presented in accordance with the requirements of Regulation 33 and Regulation 52 of the Listing Regulations in this regard; and
 - give a true and fair view in conformity with the recognition and measurement principles laid down in the applicable accounting standards prescribed under Section 133 of the Companies Act, 2013 and other accounting principles generally accepted in India, of the net profit and other comprehensive income and other financial information for the quarter ended June 30, 2023.

Basis for Opinion

- We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 (the Act) and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Results section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Results under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

- We draw your attention to Note 4 to the Standalone Financial Results which states that the ability of the Tata Steel Europe (TSE), the step-down subsidiary of T Steel Holdings Pte. Ltd. (TSH), a subsidiary of the Company, to continue as a going concern is dependent on the outcome of measures taken as stated therein and the availability of future funding requirements, which may have a consequential impact on the carrying amount of investment of Rs. 19,684.89 crores in TSH as at June 30, 2023.

Our opinion is not modified in respect of this matter.

Management's Responsibilities for the Standalone Financial Results

5. These Standalone Financial Results have been prepared on the basis of the interim financial statements. The Company's Board of Directors are responsible for the preparation of these Standalone Financial Results that give a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standard (Ind AS) 34, 'Interim Financial Reporting' prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 and Regulation 52 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Results that give a true and fair view and are free from material misstatement, whether due to fraud or error.
6. In preparing the Standalone Financial Results, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
7. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

8. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Results.
9. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Standalone Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.

Price Waterhouse & Co Chartered Accountants LLP

- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Standalone Financial Results, including the disclosures, and whether the Standalone Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Review Report

To
The Board of Directors
Tata Steel Limited
Bombay House,
24, Homi Modi Street,
Fort, Mumbai 400001

1. We have reviewed the consolidated unaudited financial results of Tata Steel Limited (the "Parent"), its subsidiaries (the parent and its subsidiaries hereinafter referred to as the "Group"), and its share of the net loss after tax and total comprehensive income of its jointly controlled entities and associate companies for the quarter ended June 30, 2023 which are included in the accompanying 'Consolidated Statement of Profit and Loss for the quarter ended on 30th June 2023' (the "Statement"). The Statement is being submitted by the Parent pursuant to the requirements of Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations"), which has been stamped by us for identification purposes.
2. This Statement, which is the responsibility of the Parent's Management and has been approved by the Parent's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

4. The Statement includes the results of the entities listed in Annexure A.
5. Based on our review conducted and procedures performed as stated in paragraph 3 above and based on the consideration of the audit/ review reports of other auditors referred to in paragraph 7 below, nothing has come to our attention that causes us to believe that the accompanying Statement has not been prepared in all material respects in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India and has not disclosed the information required to be disclosed in terms of Regulation 33 and Regulation 52 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

6. Our conclusion is not modified in respect of the following Material Uncertainty Relating to Going Concern that has been communicated to us by the auditors of Tata Steel Europe Limited, a subsidiary of the Holding Company, vide their review report dated July 21, 2023:

“Without modifying our conclusion on the special purpose interim financial information, we have considered the adequacy of the disclosure concerning the entity’s ability to continue as a going concern. Tata Steel Europe Limited, via its UK business, has received a letter of support from T S Global Holdings Pte Ltd to either refinance or repay its Revolving Credit Facility and uncommitted facilities due to expire on or before June 2024. TS Global Procurement Pte Ltd has also provided a letter of support to the UK business for access to £300m of additional working capital, which is more than estimated to be required under a severe but plausible downside scenario over the next twelve months. The letters state that they represent present policy, are given by way of comfort only and are not to be construed as constituting a promise as to the future conduct of the entities or Tata Steel Limited. Accordingly, there can be no certainty that the funds required by Tata Steel Europe Limited will be made available. These conditions, along with the other matters explained in the special purpose interim financial information, indicate the existence of a material uncertainty which may cast significant doubt about the entity’s ability to continue as a going concern. The special purpose interim financial information does not include the adjustments that would result if the entity was unable to continue as a going concern.”

4. Tata Steel Europe Limited ("TSE"), a wholly owned indirect subsidiary of the Company, has assessed the potential impact of the economic downturn in Europe caused by external factors including higher inflation, higher interest rates and supply chain disruption caused by the war in Ukraine on its future business outlook for UK and Mainland Europe (MLE) value chains.

The Board has considered reasonably possible scenarios to stress test the financial position of both the UK and MLE businesses, including the impact of lower steel margins against the Annual Plan and the mitigating actions the Group could take to limit any adverse consequences to liquidity in the annual impairment assessments.

Based on the assessment, the MLE business is expected to have adequate liquidity under all the reasonably possible scenarios considered. In relation to the likely investments required for the de-

carbonisation of the MLE operations driven by regulatory changes in Europe and Netherlands, inter alia, the scenarios consider that the Dutch government will provide financial support to execute the decarbonisation strategy.

The outlook for Tata Steel UK Limited ("TSUK"), a wholly owned indirect subsidiary of TSE, however, is expected to be adversely impacted towards meeting its liquidity requirements and accordingly with respect to its ability to continue as a going concern. In response to the challenging market and business conditions, TSUK continues to implement various measures aimed at improving its business performance and conserving cash including but not limited to ensuring adequate liquidity, if required, through available financing options, management of working capital, implementation of cost reduction measures and discussions with the UK Government to seek adequate support for transition to Green Steel as part of its decarbonization strategy. The progress of discussions with the UK government is also being monitored closely given that based on the initial and subsequent discussions it remains uncertain whether adequate support for the decarbonisation strategy would be agreed. Given the risks and challenges associated with the underlying market and business conditions, the uncommitted nature of available financing options and the uncertainty with respect to whether adequate government support would be agreed, there exists a material uncertainty surrounding the impact of such adversities on the financial situation of TSUK.

The financial statements of TSE have been prepared on a going concern basis recognising the material uncertainty in relation to TSUK.

Whilst the Company's carrying amount of its equity investment in T Steel Holdings Pte. Ltd. after recognising impairment in earlier years, which holds TSE, is considered recoverable in the standalone financial results, the associated uncertainties have been explained above.

The Group has assessed its ability to meet any liquidity requirements at TSE, if required, and concluded that its cashflow and liquidity position remains adequate.

5. During the quarter, the Company entered into a long-term arrangement with a joint venture to dedicate a class of its downstream assets for production of certain value added products to drive synergies at market place. Pursuant to this arrangement, "Other income" in the standalone and consolidated financial results includes a gain of ₹903.40 crore for the quarter (net of tax impact on the net profit for the quarter is ₹676.03 crore on standalone basis).
The consolidated net profit for the quarter considers a gain of ₹338.02 crore (net of tax) on account of the above transaction based on the Company's shareholding.
6. Exceptional item 8(a) and 8(b) in the consolidated financial results represents profit on disposal of an associate and reversal of doubtful advances respectively within the Group's European Operations.

Exceptional item 8(e) in the consolidated financial results represents stamp duty and registration fees paid within the Group's Indian Operations.

INDEPENDENT AUDITOR'S REPORT
To the Board of Directors of TRF Limited
Report on the Standalone Financial Results

5. In preparing the standalone financial results, the Board of Directors of the Company are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
6. The Board of Directors of the Company are responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

7. Our objectives are to obtain reasonable assurance about whether the standalone financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial results.
8. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls. (Refer paragraph 11 below)
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
 - Conclude on the appropriateness of the Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the standalone financial results, including the disclosures, and whether the standalone financial results represent the underlying transactions and events in a manner that achieves fair presentation.
9. We communicate with those charged with governance of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR'S REPORT
To the Board of Directors of TRF Limited
Report on the Consolidated Financial Results

Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial results by the Directors of the Holding Company, as aforesaid.

5. In preparing the consolidated financial results, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
6. The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Results

7. Our objectives are to obtain reasonable assurance about whether the consolidated financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial results.
8. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls. (Refer paragraph 13 below)
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
 - Conclude on the appropriateness of the Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the consolidated financial results, including the disclosures, and whether the consolidated financial results represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial results/financial information of the entities within the Group to express an opinion on the consolidated Financial Results. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial results of which we are the independent auditors.

2. Effect of the Scheme on each class of shareholders and Key Managerial Personnel and promoter shareholders and non-promoter shareholders of Tata Steel Limited:

1. The Valuation Report recommends the following Share Exchange Ratio:

17 (seventeen) fully paid-up equity shares of nominal value of ₹1/- each of the Transferee Company for every 10 (ten) fully paid-up equity shares of nominal value of ₹10/- each held in the Transferor Company as on the Record Date (as defined in the Scheme);

No special valuation difficulties were reported by the Valuer.

2. Effect on the equity shareholders (promoter shareholders and non-promoter shareholders)

As far as the equity shareholders of the Transferee Company i.e. both promoter shareholders as well as non-promoter shareholders, are concerned, the amalgamation of the Transferor Company with the Company will result in dilution of holding of promoter group in the Transferee Company's shares by approximately 0.04% and in turn will increase the public shareholding of the Transferee Company's shares to that extent. There will also be an increase in the trading stock of the shares of the Transferee Company.

Further, the Transferee Company shall without any further application, act, instrument or deed, issue and allot 17 (seventeen) fully paid-up equity shares of nominal value of ₹1/- each of the Transferee Company to the shareholders of the Transferor Company (except the Transferee Company) for every 10 (ten) fully paid-up equity shares of nominal value of ₹10/- each held by the shareholders (except the Transferee Company) in the Transferor Company, whose name(s) appear(s) in the register of members, including register and index of beneficial owners maintained by a depository(ies) under Section 11 of the Depositories Act, 1996 as on the Record Date (as defined in the Scheme). Thus, the shareholders of the Transferor Company will become the shareholders of the Transferee Company, which is part of both BSE SENSEX and NIFTY- 50 indices, the two most significant stock indices of the country. The issuance of New Shares in terms of the Scheme will have no significant impact on the shareholders of the Transferee Company, except consequent dilution upon issuance of the New Shares.

3. Effect on the KMPs

There shall be no effect on the KMPs of the Transferee Company except to the extent that Mr. T. V. Narendran, Chief Executive Officer & Managing Director and Mr. Koushik Chatterjee, Executive Director and Chief Financial Officer of the Company, currently holding directorship in the Transferor Company, shall cease to be the directors of the Transferor Company and except to the extent of the equity shares held (if any) by the KMPs or their relatives in the Transferor Company.

The effect of the Scheme on the interests of the KMPs and their relatives holding shares in the Company, is not different from the effect of the Scheme on other shareholders of the Company.

4. Effect on the creditors

Under the Scheme no arrangement or compromise is being proposed with the creditors (secured or unsecured, including debenture holders) of the Company. The liability of the creditors of the Company, under the Scheme, is neither being reduced nor being extinguished.

5. Effect on staff or employees

Under the Scheme, no rights of the staff and employees (who are on payroll of the Company) of the Company are being affected. The services of the staff and employees of the Company shall continue on the same terms and conditions applicable prior to the proposed Scheme.

Further, upon the Scheme becoming effective, the employees of the Transferor Company ("Employees") will be deemed to have become employees of the Company pursuant to the Scheme with effect from the Effective Date.

All such Employees shall be deemed to have become employees of the Company, without any break in their service and on the basis of continuity of service, and the terms and conditions of their employment with the Company, shall not be less favorable than those applicable to them with reference to their employment in the Transferor Company as on the Effective Date.

3. Conclusion

While deliberating on the Scheme, the Board has considered its impact on each of the shareholders (promoters and non-promoter shareholders), KMPs, creditors and employees. In the opinion of the Board, the Scheme is in the best interest of the shareholders (promoters and non-promoter shareholders), KMPs, creditors and employees of the Company and there will be no prejudice caused to them in any manner by the Scheme.

The Board has adopted this Report after noting and considering the documents and information set forth in this Report. In order for the Transferee Company to comply with the requirements of extant regulations applicable to companies undertaking any scheme of amalgamation, this report of the Board may please be taken on record while considering the Scheme.

The proposed amalgamation would also result in sharing of best practices, cross functional learnings, better utilisation of common facilities and greater efficiencies in debt and cash management;

- (b) **Simplified structure and management efficiency:** In line with group level 5S strategy –simplification, synergy, scale, sustainability, and speed – proposed amalgamation will simplify group holding structure, improve agility to enable quicker decision making, eliminate administrative duplications, consequently reducing administrative costs of maintaining separate entities;

Further, overall technology maturity can be enhanced by the merged entity through unfettered access to each other's information technology applications and systems.

6. SCHEME NOT DETRIMENTAL TO THE SHAREHOLDERS

- 6.1 Based on the (a) presentations made by the Registered Valuer and the independent SEBI registered Category – I Merchant Banker and the discussion(s) that ensued thereafter; (b) review of the documents placed at the meeting, (c) Committee's deliberations and consideration of various factors including but not limited to the synergies mentioned in paragraph 5, need for the Scheme, rationale and objective, salient features and expected benefits of the Scheme, the Committee concluded that the proposed Scheme is fair and in the best interest of the shareholders, as the proposed amalgamation is expected to result in economies of scale and consolidation of opportunities, thereby enhancing the value of the merged entity and overall shareholder value.
- 6.2 Further, the Independent Directors of the Company noted that, upon the Scheme coming into effect, the Transferee Company shall without any further application, act, instrument or deed, issue and allot 17 (seventeen) fully paid-up equity shares of nominal value of Re. 1/- each of the Transferee Company to be allotted to the shareholders of the Transferor Company (except the Transferee Company) for every 10 (ten) fully paid-up equity shares of nominal value of Rs. 10/- each held by the shareholders (except the Transferee Company) in the Transferor Company, whose name(s) appear(s) in the register of members, including register and index of beneficial owners maintained by a depository(ies) under Section 11 of the Depositories Act, 1996 as on the Record Date (as defined in the Scheme). Thus, the Independent Directors placed emphasis (amongst others), on the fact that the shareholders of the Transferor Company will become the shareholders of the Transferee Company, which is part of both BSE SENSEX and NIFTY- 50 indices, the two most significant stock indices of the country.

- 6.3 Given, that the Scheme envisages issue of New Shares by the Transferee Company to the shareholders of the Transferor Company, the Independent Directors also considered the impact of issuance of New Shares on the shareholders of the Transferee Company. After due deliberations, the Independent Directors unanimously concluded that the issuance of New Shares in terms of the Scheme will have no significant impact on the shareholders of the Transferee Company.

7. **RECOMMENDATION OF THE ID COMMITTEE**

In light of the aforesaid conclusion, the ID Committee was of the view that the proposal of amalgamation and the Scheme are not detrimental to the shareholders of the Company and decided to recommend the proposal of amalgamation and the draft Scheme to the Board of Directors.

In order for the Transferee Company to comply with the requirements of extant regulations applicable to the listed companies undertaking any scheme of amalgamation, this report of the ID Committee may please be taken on record by the Board while considering the Scheme for approval and further authorisations.

APPROACH TO VALUATION ENGAGEMENT

In connection with this exercise, we have adopted the following procedures to carry out the valuation:

- Discussion with the Management to understand the business and fundamental factors that affect its earning-generating capability including strength, weaknesses, opportunity and threats analysis and historical financial performance
- Analysis of information shared by the Management
- Analysis of information related to the Companies and its peers as available in public domain
- Discussion with the Registered Valuer and the Fairness Opinion giver appointed by TRF regarding the valuation approach being adopted by them for the proposed Transaction
- Selection of appropriate internationally accepted valuation methodology/(ies) after deliberation
- Arriving at Valuation of Shares for the Proposed Transaction

VALUATION MEHTODOLOGY

The Scheme contemplates the Amalgamation of TRF into TSL. Arriving at the fair exchange ratio would require determining relative value of the equity shares of TSL and TRF. These values are to be determined independently but on a relative basis for the Companies, without considering the Proposed Transaction.

There are several commonly used and accepted methods for determining the valuation of TSL, which have been considered in the present case, to the extent and applicable, including:

1. Market Approach:
 - a. Market Price Method
 - b. Comparable Companies Multiples
2. Income Approach: Discounted Cash Flow Method
3. Cost Approach: Net Asset Value Method

As discussed below for the Proposed Transaction we have considered these methods, to the extent relevant and applicable. This valuation could fluctuate with passage of time, changes in prevailing market conditions and prospects, industry performance and general business and economic conditions financials and otherwise, of the Companies, and other factors which generally influence the valuation of the companies and their assets.

I have relied on the judgement of the Management as regards contingent and other liabilities, and have made appropriate adjustments for the same based on my past experience.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although, different values may exist for different purpose, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. My choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature, regulatory guideline and our reasonable judgement, in an independent and bona fide manner based on my previous experience of assignments.

The Valuation methodologies, as may be applicable which have been used to arrive at the value attributable to the equity shareholders of TSL, are discussed hereunder:

Market Price (“MP”) Method:

The market price of an equity share as quoted on a stock Entitlement is normally considered as the value of the equity shares of that company where such quotations are available from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares.

In the present case, equity shares of TSL and TRF are listed on both BSE and NSE. The share price observed on NSE for an appropriate period prior to the valuation date (upto 12th September 2022) has been considered for determining the value of TSL and TRF under the market price method as the traded turnover of shares of TSL and TRF is higher on NSE as compared to the turnover of shares on BSE. The market value of TSL and TRF is arrived at by considering SEBI formula.

Comparable Companies Market Multiple (“CCM”) Method:

Under this method, value of the equity shares of a company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. I have considered this method for valuing both the companies.

Discounted Cash Flow (“DCF”) Method:

The discounted cash flow method is a modern valuation method which relates the value of an asset to the present value of the expected future cash flows on those assets. Here the projected cash flow is discounted with the weighted average cost of capital to arrive at the value. I have not considered DCF for the present valuation exercise, as the long term financial projections have not been made available being price sensitivity information.

Book Value / Net Assets Value (“NAV”) Method:

In case of Net Assets Method, the value is determined by dividing the net assets of the company by the number of shares. The underlying asset approach represents the value with reference to the historical cost of the assets owned by a company and attached liabilities as at the valuation date.

Since the shares are valued on a “going concern” basis, and there are no intentions to dispose off the assets of the Companies, I have considered it appropriate not to consider this method of valuation for the present valuation exercise.

RECOMMENDATION ON FAIR EXCHANGE RATIO

The fair basis of amalgamation of the Companies would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove. Though different values have been arrived at, under each of the above approaches, for the purpose of recommending a ratio of exchange it is necessary to arrive at a single value for the shares of each company. It is however important to note that in doing so, I am not attempting to arrive at the absolute values of the shares of each company. My approach is to work out relative value of shares of the Companies to facilitate determination of ratio of exchange by applying appropriate weightage to the values.

Computation of Fair Share Exchange Ratio

Valuation Approach	TSL		TRF	
	Value Per Share	Weight	Value Per Share	Weight
Asset Approach – NAV Method*	91.6	0%	--	0%
Income Approach – DCF Method**	N/A	0%	N/A	0%
Market Approach – MP Method	106.6	50%	169.0	50%
Market Approach – CCM Method	107.4	50%	195.2	50%
Relative Value per Share	107.0		182.1	
Fair Exchange Ratio (rounded off)	1.7			

*TSL is assumed to continue business on “going concern basis”, and there being no intention to dispose off the assets, therefore I have not considered Asset Approach Method for the said transaction. Equity Value as per NAV Method for TRF is negative hence the same is not considered.

**Since the Companies are listed on stock exchanges, information relating to the future financial performance of the Companies is price sensitive, accordingly long term financial projections have not been made available. Hence income approach has not been considered for the present exercise.

RATIO:

17 equity shares of TSL of Rs. 1/- each fully paidup for every 10 equity shares of TRF of Rs. 10/- each fully paidup.

The share exchange ratio has been arrived on the basis of a relative valuation of the shares of the Companies based on the various methodologies explained herein earlier and various qualitative factors relevant to each of the Companies and the business dynamics and growth potential of the businesses of the Companies, having regard to information base, management representations and perceptions, key underlying assumptions and limitations.

In the ultimate analysis, valuation will have to involve the exercise of judicious discretion and judgement taking into account all the relevant factors. There will always be several factors, e.g. present and prospective

competition, yield on comparable securities and market sentiments etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a share. This concept is also recognized in various judicial decisions.

FAIR EXCHANGE RATIO FOR AMALGAMATION OF TRF into TSL

In the light of the above and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove referred to earlier in this Report, in my opinion, a fair ratio of exchange in the event of amalgamation of TRF into TSL would be:

17 equity shares of TSL of Rs. 1/- each fully paid up for every 10 equity shares of TRF of Rs. 10/- each fully paid up.

- b) Till the Proposed Amalgamation becomes effective, neither Companies would declare any substantial dividends having materially different yields as compared to past few years.

We have relied on the above for the purpose of providing Fairness Opinion Report for the Proposed Amalgamation.

This Report is subject to the scope, assumptions, exclusions, limitations and disclaimers detailed hereinafter. As such the Report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.

Providing fairness opinion is not a precise science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgement. In the ultimate analysis, our opinion will have to be tempered by the exercise of judicious discretion and judgment taking into accounts all the relevant factors. There is, therefore, no indisputable single equity share exchange ratio.

The final responsibility for the determination of the equity share exchange ratio at which the Proposed Transaction shall take place will be with the Board of Directors of the Companies who should take into account other factors such as their own assessment of the Proposed Transaction and input of other advisors (if any).

We have assumed that the amalgamation will be consummated on the terms set forth in the Scheme and that the final version of the Scheme will not change in any material respect from the draft version we have reviewed for the purpose of this opinion.

The Report assumes that the Companies comply fully with relevant laws and regulations applicable in its area of operations and usage unless otherwise stated, and that the Companies will be managed in a competent and responsible manner. Further, as specifically stated to the contrary, this Report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigations and other contingent liabilities that are not recorded/reflected in the balance sheet provided to us.

The Report does not address the relative merits of the Proposed Transaction as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available.

Neither the Report nor its contents may be referred to or quoted in any registration statement, prospectus, offering memorandum, annual report, loan agreement or other agreement or document given to third parties, other than in connection with the proposed Scheme, without our prior written consent. In addition, this Report does not in any manner address the prices at which equity shares of the Companies will trade following announcement of the Proposed Transaction and we express no opinion or recommendation as to how the shareholders of either company should vote at any shareholders' meeting(s) to be held in connection with the Proposed Transaction.

The fairness opinion is governed by concept of materiality.

It has been assumed that the required and relevant policies and practices have been adopted by the Companies and would be continued in the future.

The fee for the Report is not contingent upon the results reported.

We owe responsibility only to the Board of Directors of the Client that has appointed us under the terms of the engagement letters. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions or advice given by any other person

SCOPE AND PURPOSE OF THIS REPORT

We understand that the amalgamation of TRF with TSL is being contemplated through a Scheme of Amalgamation under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013, and rules framed thereunder (hereinafter referred to as “the Proposed Scheme”), whereby it is proposed to amalgamate TRF Limited into Tata Steel Limited, on a going concern basis (‘Transaction’).

The Transferee Company is one of the leading global steel companies, with over 100 (hundred) years of experience in the steel sector and is a pioneer of steel manufacturing in India. It is also amongst the lowest cost integrated steel manufacturers in India, with 100% (hundred percent) captive iron ore sources. The Transferor Company is focused on providing design and manufacture of material handling systems and equipment which caters to the requirement of sectors such as steel, power, port and mining. The amalgamation will ensure focused management in the combined entity thereby resulting in efficiency of management and maximizing value for the shareholders. Such restructuring will lead to simplification of group structure by eliminating multiple companies in similar business. Further, the amalgamation will translate to the philosophy of ‘One Tata Steel’ in front of customers which will lead to better customer service delivery.

In addition, resulting corporate holding structure will lead to agility in the business ecosystem of the Companies. As a result, operating costs will be reduced due to operational efficiencies, rationalisation, standardization, and simplification of business processes. Further, proposed Scheme will also reduce number of entities working in similar business lines.

The Transaction is proposed to be carried out with effect from the appointed date as specified in the Proposed Scheme.

For this purpose, RVS has been appointed to recommend the fair equity share exchange ratio for the said amalgamation (‘Exchange Ratio’). The bases of value is ‘Relative Value’ and the valuation is based on ‘Going Concern’ premise.

The scope of our services is to conduct a relative (and not absolute) valuation of the equity shares of TRF and TSL and recommending an exchange ratio for the proposed amalgamation in accordance with the International Valuation Standards / ICAI Valuation Standards 2018 (‘ICAI VS’) issued by the Institute of Chartered Accountants of India (‘ICAI’).

This report is our deliverable for the above engagement.

This report is subject to the scope, assumptions, limitations, disclaimers and exclusions, detailed hereinafter. As such, the report is to be read in totality, and not in parts.

VALUATION STANDARDS FOLLOWED AND PROCEDURES ADOPTED FOR VALUATION

- We have performed the valuation analysis, to the extent possible, in accordance with Indian Valuation Standards, 2018 issued by the Institute of Chartered Accountants of India ('IVS'). IVS 301 on Business Valuation deals with valuation of a business or business ownership interest (i.e., it includes valuation of equity shares).
- In connection with this exercise, we have adopted the following procedures to carry out the valuation analysis:
 - Requested and received relevant data (financial and qualitative) from the Management.
 - Used data available in public domain related to the Companies and its peers.
 - Discussions with the Management on understanding of the businesses of the Companies concerning the business and fundamental factors that affect their earning capacity including historical performance, future plans and prospects, etc.
 - Obtained and analysed market prices of equity shares of the Companies.
 - Determination of valuation multiples of comparable companies using information in public domain.
 - Selection of valuation approach and valuation methodology/ (ies), in accordance with IVS, as considered appropriate and relevant by us.
 - Arriving at the relative values of the equity shares of the Companies to determine the fair equity share exchange ratio for the Proposed Transaction.

SCOPE LIMITATIONS AND DISCLAIMERS

- We have no present or prospective contemplated financial interest in the Companies and we have no personal interest with respect to the Promoters and Board of Directors of the Companies. We have no bias/prejudice with respect to any matter that is the subject of the valuation report. The fee for the valuation engagement is not contingent upon the results reported and no way influenced the results of our valuation analysis.
- We have adopted Relative Value as the valuation base and Going Concern value as the premise of value. While our work has involved an analysis of financial information and accounting records, our engagement does not include an audit in accordance with the generally accepted auditing standards. We have placed reliance on information provided by the Management and their respective authorized representatives. Our reliance is based on the completeness and accuracy of the facts provided; which if not entirely complete or accurate, should be communicated to us immediately, as the inaccuracy or incompleteness could have a material impact on our findings. We further assume that the Managements of the Companies have brought to our attention all material transactions, events or any other factor having an impact on the share exchange ratio.
- Our report is subject to the terms of engagement mentioned in our engagement letter dated 09th September 2022. Valuation analysis and results are specific to the purpose of valuation mentioned in this report as per agreed terms of our engagement. It may not be valid for any other purpose or as at any other date.

Recommendation of Fair Equity Share Exchange Ratio for Proposed Amalgamation of TRF Limited with Tata Steel Limited

- We have considered and relied on the information provided to us by the Management including financial information, significant transactions and events occurring subsequent to the balance sheet date. We understand that the information provided to us and the representations made to us (whether verbal or written) are reliable and adequate. We have derived our conclusions and recommendation from the information so provided and we are thus reliant on the given information to be complete and accurate in every significant aspect. We are made to believe that the Management has informed us about all material transactions, events or any other relevant factors which are likely to have an impact on our valuation recommendation.
- In the ultimate analysis, valuation will have to capture the exercise of judicious discretion by the Valuer and judgment taking into account all the relevant factors. There will always be several factors which are not evident from the face of the financial statements, but which will strongly influence the worth of a share. Examples of such factors include quality and integrity of the management, capital adequacy, asset quality, earnings, liquidity, size, present and prospective competition, yield on comparable securities and market sentiment, etc. This concept is also recognized in judicial decisions.
- This Report does not look into the business / commercial reasons behind the transaction. We have no present or planned future interest in either of the companies and the fee for this certificate is not contingent upon the values reported therein. Our valuation analysis should not be construed as an investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any transaction with the companies.
- Any discrepancy in any table between the total and sum of the amounts listed are due to rounding-off.

Further, at the request of the Management, we have had discussions with the Registered Valuer mentioned in respect of our valuation analysis.
- The valuation report is subject to the laws of India.

VALUATION APPROACHES AND METHODOLOGIES

- Arriving at the fair equity share exchange ratios for the proposed amalgamation of TRF into TSL, would require determining the relative equity valuation of TRF and TSL, based on methodologies explained herein and various qualitative factors relevant to TRF and TSL.
- The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner.
- It should be understood that the valuation of any company or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we have made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the Companies. In addition, this valuation will fluctuate with changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of the Companies, and other factors which generally influence the valuation of companies and their assets.
- As per the Scheme, the equity shareholders of TRF (other than TSL) will be issued equity shares of TSL as consideration for the proposed amalgamation. In accordance with IVS, to arrive at the fair share exchange ratio, it is required to determine the fair value of equity shares of TRF and fair value of equity shares of TSL. These values are to be determined on a per share basis and are to be determined independently without considering the proposed transaction. The values are then to be assessed on a relative basis to determine the share exchange ratio.
- For the purpose of valuation, it is necessary to select an appropriate basis of valuation amongst the various valuation techniques. It is universally recognized that valuation is not an exact science and that estimating values necessarily involves selecting a method or approach that is suitable for the purpose. The application of any particular method of valuation depends upon various factors including the size of company, nature of its business and purpose of valuation. Further, the concept of valuation is all about the price at which a transaction takes place i.e., the price at which seller is willing to sell and buyer is willing to buy. Accordingly, a fair and reasonable approach for valuing the shares of the company is to use a combination of these methods.

Recommendation of Fair Equity Share Exchange Ratio for Proposed Amalgamation of TRF Limited with Tata Steel Limited

- The three main approaches of valuation are the market approach, income approach and asset approach. There are several commonly used and accepted methods including those set out in the ICAI valuation standards, within the asset approach, income approach and market approach, for determining the relative values to arrive at the Share Exchange Ratio for the proposed Transaction.
- IVS 301 specifies that generally the following three approaches for valuation of business / business ownership interest are used:
 - Cost Approach
 - Market Approach
 - Income Approach
- These approaches and methodologies have been considered in the present valuation exercise, to the extent relevant and applicable, to arrive at the fair equity Share Exchange Ratio for the purpose of the Amalgamation:

Cost Approach – Net Asset Value (NAV) method

- The value under cost approach is determined based on the underlying value of the assets which could be on book value basis, replacement cost basis or on the basis of realizable value. Under NAV method, total value of the business is based on the Net Assets Value either on book value or realizable value or replacement cost basis. NAV methodology is most applicable for the business where the value lies in the underlying assets and not the ongoing operations of the business. NAV method does not capture the future earning capacity of the business.
- We have not considered NAV method for the said valuation purpose as both TRF and TSL are operating businesses and we understand that historical book value does not reflect intrinsic value of their businesses. The valuation is undertaken with going concern assumption and we do not contemplate an actual sale realization of the individual assets. We have therefore not considered NAV method for the said valuation.

Income Approach – Discounted Cash Flows (DCF) method

- Under the Income Approach, business is valued by converting maintainable or future amount of cash flows to a single current amount either through discounting or capitalization. DCF Method seeks to arrive at the value of the business based on its future cash flows generating capability and the risks associated with the said cash flows. FCFF or free cash flows to the firm (“FCFF”) represents the cash available for distribution to both the owners and the creditors of the business. Risk-adjusted discount rate or Weighted Average Cost of Capital (“WACC”) is applied to free cash flows in the explicit period and that in perpetuity. Adjustments pertaining to debt, surplus/non-operating assets including investments, cash & bank balance and contingent assets/liabilities and other liabilities, as relevant, are required to be made in order to arrive at the value for equity shareholders. The total value for the equity shareholders so arrived is then to be divided by the number of equity shares to arrive at the value per equity share of the company.
- In the present case, since the Companies are listed on stock exchanges, information relating to the future financial performance of the Companies is price sensitive. Additionally having regard to the business in which the companies operate, projecting financials of the companies on a reliable basis, to afford a relative comparison, is difficult and involves considerable subjectivity, and hence such projections have not been made available for the present exercise. In the absence of business plan and projections, we have not considered the Income Approach.

Market Approach – Market Price method

- Under the Market Price method, the market price of an equity share as quoted on a recognized Stock Exchange is normally considered as the value of the equity shares of that company, where such quotations are arising from the shares being regularly and frequently traded. Generally, market value is reflective of the investors’ perception about the actual worth of the company. However, in certain situations, the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. Further in case of amalgamation, where the value of shares of one company is required to be evaluated against the value of shares of another company, the volume of shares traded and available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.
- Since, TRF and TSL are listed companies and market price of equity shares of TRF and TSL are traded on NSE and BSE over a reasonable period, we have considered this method to determine the value of shares of the Companies. We have considered volume weighted average price for an appropriate period for determining the value of equity shares of the Companies.

Market Approach – Comparable Companies' Multiple (CCM) method

- Under CCM Method, the value of shares of the subject company is determined on the basis of multiples derived from valuations of comparable companies. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. Considering availability of listed comparable companies and availability of profitability levels, we have considered the CCM method of valuation to determine the value of shares of TRF and TSL.
- We have considered Enterprise Value to Earnings before interest, tax, depreciation and amortization (EV/EBITDA) multiple to determine the value of equity shares of TRF and TSL under CCM method.

SHARE ISSUANCE RATIO AND CONCLUSION

- The basis of the amalgamation of TRF with TSL would have to be determined after taking into consideration all the factors and methods mentioned in this Report. Though different values have been arrived at under each of the above methods, for the purposes of recommending the fair exchange ratio of equity shares it is necessary to arrive at a final value for each of the Companies' shares. It is however important to note that in doing so, we are not attempting to arrive at the absolute equity values of the Companies, but at their relative values to facilitate the determination of the Fair Equity Share Exchange Ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each approaches / methods.
- The Fair Equity Share Exchange Ratio has been arrived at on the basis of a relative equity valuation of the Companies based on the various approaches / methods explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potentials of the businesses of the Companies, having regard to information base, key underlying assumptions and limitations. We have independently applied methods discussed above, as considered appropriate, and arrived at their assessment of the value per equity share of TRF and TSL.
- In light of the above and on consideration of all the relevant factors and circumstances as discussed and outlined hereinabove referred to earlier in this Report for proposed amalgamation and upon the proposed Scheme becoming effective, in our opinion, we recommend Fair Equity Share Exchange Ratio for the amalgamation of TRF with TSL as below:
- "17 (Seventeen) equity shares of Tata Steel Limited of face value of INR 1/- each fully paid up for every 10 (Ten) equity shares of TRF Limited of face value of INR 10/- each fully paid up"

Yours faithfully,

APPROACH – BASIS OF AMALGAMATION

The Scheme contemplates the Proposed Amalgamation under Sections 230 to 232 of the Companies Act, 2013 and other relevant provisions of the Companies Act, 2013 and rules issued thereunder to the extent applicable.

Arriving at the Fair Equity Share Exchange Ratio for the purposes of an amalgamation such as the Proposed Amalgamation, would require determining the relative values of each company involved and of their equity shares. These values are to be determined independently but on a relative basis, and without considering the effect of the amalgamation.

Deloitte.

The three main valuation approaches are the asset approach, income approach and market approach. There are several commonly used and accepted methods within the market approach, income approach and asset approach, for determining the relative fair value of equity shares of a company, which can be considered in the present valuation exercise, to the extent relevant and applicable, to arrive at the Fair Equity Share Exchange Ratio for the purpose of the Proposed Amalgamation, such as:

1. Asset Approach - Net Asset Value (NAV) Method
2. Income Approach
 - Discounted Cash Flow (DCF) Method
 - Earnings Capitalisation Value (ECV) Method
3. Market Approach
 - Market Price Method
 - Comparable Companies Multiples (CCM) Method

It should be understood that the valuation of any company or its assets is inherently subjective and is subject to uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the Companies. In addition, this valuation will fluctuate with changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of the companies/businesses, and other factors which generally influence the valuation of companies and their assets.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of method of valuation has been arrived at using usual and conventional methods adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

Asset Approach - Net Asset Value Method

Under the asset approach, the net asset value method is considered, which is based on the underlying net assets and liabilities of the company, taking into account operating assets and liabilities on a book value basis and appropriate adjustments for, inter alia, value of surplus/ non-operating assets.

Income Approach: Income approach is a valuation approach that converts maintainable or future amounts (e.g., cash flows or income and expenses) to a single current (i.e., discounted or capitalised) amount. The value measurement is determined on the basis of the value indicated by current market expectations about those future amounts.

- **Discounted Cash Flow (DCF) Method:** Under this method, either:

- o the projected free cash flows from business operations available to all providers of capital are discounted at the weighted average cost of capital to such capital providers, on a market participant basis, and the sum of such discounted free cash flows is the value of the business from which value of debt and other capital is deducted, and other relevant adjustments made to arrive at the value of the equity – Free Cash Flows to Firm (FCFF) technique; This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk; or
- o the projected free cash flows from business operations available to equity shareholders (after deducting cash flows attributable to the debt and other capital providers) are discounted at the cost of equity, on a market participant basis, and the sum of such discounted free cash flows, after making other relevant adjustments, is the value of the equity - Free Cash Flows to Equity (FCFE) technique. This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to the equity capital providers. The opportunity cost to the equity capital provider equals the rate of return such equity capital provider expects to earn on other investments of equivalent risk.
- **Earnings Capitalisation Value (ECV) Method:** This method involves determination of the maintainable earnings level of the company from its operations, based on past and/ or projected working results. These earnings are then capitalized at a rate, which in the opinion of the valuer combines an adequate expectation of reward from the enterprise risk, to arrive at the value of the company.

Market Approach: Market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities or a group of assets and liabilities, such as a business.

- **Market Price Method:** Under this method, the value of shares of a company is determined by taking the average of the market capitalisation of the equity shares of such company as quoted on a recognised stock exchange over reasonable periods of time where such quotations are arising from the shares being regularly and freely traded in an active market, subject to the element of speculative support that may be inbuilt in the market price. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share, especially where the market values are fluctuating in a volatile capital market. Further, in the case of an amalgamation, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard. This method would also cover any other transactions in the shares of the company including primary/ preferential issues/ open offer in the shares of the company available in the public domain.

- **Comparable Companies Multiples (CCM) Method:** Under this method, one attempts to measure the value of the shares/ business of company by applying the derived market multiple based on market quotations of comparable public/ listed companies, in an active market, possessing attributes similar to the business of such company - to the relevant financial parameter of the company/ business (based on past and/ or projected working results) after making adjustments to the derived multiples on account of dissimilarities with the comparable companies and the strengths, weaknesses and other factors peculiar to the company being valued. These valuations are based on the principle that such market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Out of the above methods, we have used approaches/ methods as considered appropriate by us. The valuation approaches/ methods used, and the values arrived at using such approaches/ methods by us have been tabled in the next section of this Report.

BASIS OF FAIR EQUITY SHARE EXCHANGE RATIO

The fair basis of the Proposed Amalgamation would have to be determined after taking into consideration all the factors, approaches and methods considered appropriate by us. Though different values have been arrived at under each of the above approaches/ methods, for the purposes of recommending the Fair Equity Share Exchange Ratio it is necessary to arrive at a single value for the shares of the companies involved in an amalgamation such as the Proposed Amalgamation. It is however important to note that in doing so, we are not attempting to arrive at the absolute values of the shares of the Companies but at their relative values to facilitate the determination of a Fair Equity Share Exchange Ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each approach/ method.

In the ultimate analysis, valuation will have to be arrived at by the exercise of judicious discretion by the valuer and judgments taking into account all the relevant factors. There will always be several factors, e.g. quality of the management, present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a share. The determination of exchange ratio is not a precise science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. This concept is also recognized in judicial decisions. There is, therefore, no indisputable single exchange ratio. While we have provided our recommendation of the Fair Equity Share Exchange Ratio based on the information available to us and within the scope and constraints of our engagement, others may have a different opinion as to the Fair Equity Share Exchange Ratio of the equity shares of TRF and TSL. The final responsibility for the determination of the exchange ratio at which the Proposed Amalgamation shall take place will be with the Audit Committee and Board of Directors of TRF and TSL who should take into account other factors such as their own assessment of the Proposed Amalgamation and input of other advisors.

Deloitte Touche Tohmatsu India LLP
Regd. Office: One International Centre, Tower 3, 27th - 32nd Floor, Senapati Bapat Marg, Elphinstone Road (West), Mumbai - 400 013,

The Fair Equity Share Exchange Ratio has been arrived at on the basis of a relative equity valuation of TRF and TSL based on the various approaches/ methods explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potentials of the businesses of these companies, having regard to information base, key underlying assumptions and limitations.

In light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined herein above, we recommend the following Fair Equity Share Exchange Ratio for the Proposed Amalgamation whose computation is as under:

Valuation Approach	TRF Limited		Tata Steel Limited	
	Value per Share (INR)	Weight	Value per Share (INR)	Weight
Asset Approach - Net Asset Value Method	Nil	0%	89	0%
Income Approach	NA	NA	NA	NA
Market Approach – Market Price Method (i)	259	50%	100	50%
Market Approach – Comparable Companies Multiples Method (ii)	100	50%	112	50%
Relative Value per Share (INR) (Weighted Average of (i) and (ii))	180		106	
Fair Equity Share Exchange Ratio for Proposed Amalgamation of TRF into TSL (rounded off)	17:10			

Notes:

For the present valuation analysis, the amalgamation of the Companies is proceeded with on the assumption that the Companies would merge as going concerns and an actual realization of the operating assets is not contemplated. In such a going concern scenario, the relative earning power, as reflected under the Income and Market approaches, is of greater importance to the basis of amalgamation, with the values arrived at on the net asset basis being of limited relevance. Hence, while we have calculated and presented for informational purposes, the values of the shares of the Companies under the Asset Approach based on the book values of the net assets appearing in the balance sheets of the Companies as at 30th June 2022, we have considered it appropriate not to give any weightage to the same in arriving at the Fair Equity Share Exchange Ratio.

In the present case, since the Companies are listed on stock exchanges, information relating to the future financial performance of the Companies is price sensitive. Additionally having regard to the businesses in which the

Deloitte.

Companies operate, projecting financials of the Companies on a reliable basis, to afford a relative comparison, is difficult and involves considerable subjectivity and hence such projections have not been made available for the present exercise. In the absence of business plan and projections, we have not considered the Income Approach.

In the present case, the equity shares of both the Companies, TRF and TSL, are listed on BSE and NSE and are frequently traded. Hence, we have applied the Market Price Method under the Market Approach to arrive at the relative fair value of the shares for the purpose of arriving at the Fair Equity Share Exchange Ratio.

Considering the availability of comparable / benchmark listed companies engaged in the businesses carried out by the Companies, we have also applied the Comparable Companies Multiples method under the Market Approach to arrive at the relative fair value of the shares of the Companies for the purpose of arriving at the Fair Equity Share Exchange Ratio.

For the present valuation analysis, we have considered it appropriate to apply the Market Price Method and the Comparable Companies Multiples Method, to arrive at the relative fair value of the equity shares of the Companies for the purpose of the Proposed Amalgamation.

Ratio:

In light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined herein above, we recommend the following Fair Equity Share Exchange Ratio for the Proposed Amalgamation:

17 equity shares of Tata Steel Limited of INR 1/- each fully paid up for every 10 equity shares of TRF Limited of INR 10/- each fully paid up.

Our valuation Report and Fair Equity Share Exchange Ratio is based on the equity share capital structure of TRF and TSL as mentioned earlier in this Report. Any variation in the equity capital of TRF and TSL may have material impact on the Fair Equity Share Exchange Ratio.

Respectfully submitted,

The State of Odisha filed an appeal in the Supreme Court against the order of the High Court and the case is pending in Supreme Court. The potential liability, as at March 31, 2023 is ₹13,084.69 crore (March 31, 2022: ₹11,023.93 crore).
 - b) The Transferee Company pays royalty on iron ore on the basis of quantity removed from the leased area at the rates based on notification issued by the Ministry of Mines, Government of India and the price published by Indian Bureau of Mines (IBM) on a monthly basis.

Demand of ₹411.08 crore has been raised by Deputy Director of Mines, Joda, claiming royalty at sized ore rates on despatches of ore fines. The Transferee Company has filed a revision petition on November 14, 2013, before the Mines Tribunal, Government of India, Ministry of Mines, New Delhi, challenging the legality and validity of the demand and to grant refund of royalty paid in excess by the Transferee Company. Mines Tribunal has granted stay on the total demand

with directive to Government of Odisha not to take any coercive action for realisation of this demanded amount.

The Hon'ble High Court of Odisha in a similar case held the circulars based on which demands were raised to be valid. The Transferee Company has challenged the judgment of the High Court by a separate petition in the Hon'ble Supreme Court on April 29, 2016.

On July 16, 2019, the Transferee Company has filed rejoinders to the reply filed by State of Odisha against the revision petition. The State pressed for rejection of revision applications citing the judgment of the High Court. The Transferee Company represented before the authorities and explained that the judgment was passed under a particular set of facts and circumstances which cannot have blanket application on the Transferee Company considering that the case of the Transferee Company is factually different. On August 7, 2019, the Mines Tribunal decided to await the outcome of Special leave petition pending before the Hon'ble Supreme Court and adjourned the case.

Likely demand of royalty on fines at sized ore rates as on March 31, 2023 is ₹2,696.58 crore (March 31, 2022: ₹2,859.97 crore).

- c) Demand notices were originally issued by the Deputy Director of Mines, Odisha amounting to **₹3,827.29 crore for excess production over the quantity permitted** under the mining plan, environment clearance or consent to operate, pertaining to 2000-01 to 2009-10. The demand notices have been raised under Section 21(5) of the Mines & Minerals (Development and Regulations) Act, 1957 (MMDR). The Transferee Company filed revision petitions before the Mines Tribunal against all such demand notices. Initially, a stay of demands was granted, later by order dated October 12, 2017, the issue has been remanded to the State for reconsideration of the demand in the light of Supreme Court judgement passed on August 2, 2017

The Hon'ble Supreme Court pronounced its judgement in the Common Cause case on August 2, 2017 wherein it directed that compensation equivalent to the price of minerals extracted in excess of environment clearance or without forest clearance from the forest land be paid.

In pursuance to the Judgement of Hon'ble Supreme Court, demand/show cause notices amounting to **₹3,873.35 crore have been issued during 2017-18** by the Deputy Director of Mines, Odisha and the District Mining Office, Jharkhand.

In respect of the above demands:

- as directed by the Hon'ble Supreme Court, the Transferee Company has provided and paid for iron ore and manganese ore an amount of **₹614.41 crore** during 2017-18 for production in excess of environment clearance to the Deputy Director of Mines, Odisha.

- the Transferee Company has provided and paid under protest an amount of ₹56.97 crore during 2017-18 for production in excess of environment clearance to the District Mining Office, Jharkhand.
 - the Transferee Company challenged the demands amounting to ₹132.91 crore in 2017-18 for production in excess of lower of mining plan and consent to operate limits raised by the Deputy Director of Mines, Odisha before the Mines Tribunal and obtained a stay on the matter. Mines Tribunal, Delhi vide order dated November 26, 2018 disposed of all the revision applications with a direction to remand it to the State Government to hear all such cases afresh and pass detailed order. Demand amount of ₹132.91 crore (March 31, 2022: ₹132.91 crore) is considered contingent. After reconsideration, the State has raised a revised fresh demand of Rs 107 Cr in September 2022. The Transferee Company has challenged the fresh demand in Mines Tribunal, Delhi.
 - the Transferee Company has made a comprehensive submission before the Deputy Director of Mines, Odisha against show cause notices amounting to ₹694.02 crore received during 2017-18 for production in chromite ore Sukinda mine in violation of mining plan, Environment Protection Act, 1986 and Water (Prevention & Control of Pollution) Act, 1981. A demand amounting to ₹234.74 crore has been received in April 2018 from the Deputy Director of Mines, Odisha for production in excess of the Environmental Clearance. The Transferee Company has challenged the demand and obtained a stay on the matter from the Revisionary Authority, Mines Tribunal, New Delhi.
 - For its Coal mines in Jharkhand, the Transferee Company based on its internal assessment has provided an amount of ₹1,412.89 crore against demand notices amounting to ₹2,140.30 crore received from the District Mining Office, Jharkhand for producing more than environment clearance and the balance amount of ₹727.41 crore (March 31, 2022: ₹727.41 crore) is considered contingent. The Transferee Company has however been granted a stay by the Revisional Authority, Ministry of Coal, Government of India against such demand notices
- d) An agreement was executed between the Government of Odisha (GoO) and the Transferee Company in December, 1992 for drawal of water from Kundra Nalla for industrial consumption. In December 1993, the Tahsildar, Barbil issued a show-cause notice alleging that the Transferee Company has lifted more quantity of water than the sanctioned limit under the agreement and has also not installed water meter. While the proceedings in this regard were in progress, the Transferee Company had applied for allocation of fresh limits.

Over the years, there has also been a steep increase in the water charges against which the Transferee Company filed writ petitions before Hon'ble High Court of Odisha. The Transferee Company received a demand of ₹183.46 crore for the period starting January 1996 to November 2020 in this regard.

The writ petition filed in August, 1997 was listed for hearing before the Full Bench of the Odisha High Court on May 17, 2019. SAIL, one of the petitioners, sought permission to withdraw its writ petition because the settlement was arrived with the State Government on the matter. The High court allowed withdrawal of writ petition of SAIL and directed other parties to negotiate with the State Government. The Transferee Company has submitted its detailed representation to Principal Secretary, Water Resource Department, GoO on June 21, 2019, which is under consideration. The litigation has since been disposed off favourably in June 2022. Following the directions of Hon'ble HC, the State has issued a One-Time Settlement Scheme. The Transferee Company has opted for the scheme and final resolution is in progress.

The potential exposure as on March 31, 2023 is Nil (March 31, 2022: ₹262.13 crore) is considered as contingent.

5. Other significant litigations

- i. Odisha Legislative Assembly issued an amendment to Indian Stamp Act, 1889, on May 09, 2013 and inserted a new provision (Section 3A) in respect of stamp duty payable on grant/renewal of mining leases. As per the amended provision, stamp duty is levied equal to 15% of the average royalty that would accrue out of the highest annual extraction of minerals under the approved mining plan multiplied by the period of such mining lease. The Transferee Company had filed a writ petition challenging the constitutionality of the Act on July 5, 2013. The Hon'ble High Court, Cuttack passed an order on July 9, 2013 granting interim stay on the operation of the Amendment Act, 2013. Because of the stay, as on date, the Act is not enforceable and any demand received by the Transferee Company is not liable to be proceeded with. Meanwhile, the Transferee Company received demand notices for the various mines at Odisha totalling to **₹5,579.00 crore (March 31, 2022: ₹5,579.00 crore)**. The Transferee Company has concluded that it is remote that the claim will sustain on ultimate resolution of the legal case by the court.

In April 2015, the Transferee Company has received an intimation from Government of Odisha, granting extension of validity period for leases under the MMDR Amendment Act, 2015 up to March 31, 2030 in respect of eight mines and up to March 31, 2020 for two mines subject to execution of supplementary lease deed. Liability has been provided in the books of accounts as on March 31, 2020 as per the existing provisions of the Stamp Act 1899 and the Transferee Company had paid the stamp duty and registration charges totalling **₹413.72 crore for supplementary deed execution** in respect of eight mines out of the above mines.

- ii. Noamundi Iron Ore Mine of the Transferee Company was due for its third renewal with effect from January 1, 2012. The application for renewal was submitted by the Transferee Company within the stipulated time, but it remained pending consideration with the State and the mining operations were continued in terms of the prevailing law.

By a judgement of April 2014 in the case of Goa mines, the Supreme Court took a view that second and subsequent renewal of mining lease can be effected once the

State considers the application and decides to renew the mining lease by issuing an express order. State of Jharkhand issued renewal order to the Transferee Company on December 31, 2014. The State, however, took a view on interpretation of Goa judgement that the mining carried out after expiry of the period of second renewal was 'illegal' and hence, issued a demand notice of ₹3,568.31 crore being the price of iron ore extracted. The said demand has been challenged by the Transferee Company before the Jharkhand High Court.

The mining operations were suspended from August 1, 2014. Upon issuance of an express order, Transferee Company paid ₹152.00 crore under protest, so that mining can be resumed.

The Mines and Minerals Development and Regulation (MMDR) Amendment Ordinance, 2015 promulgated on January 12, 2015 provides for extension of such mining leases whose applications for renewal have remained pending with the State(s). Based on the new Ordinance, Jharkhand Government revised the Express Order on February 12, 2015 for extending the period of lease up to March 31, 2030 with the following terms and conditions:

- a) value of iron ore produced by alleged unlawful mining during the period January 1, 2012 to April 20, 2014 for ₹2,994.49 crore to be decided on the basis of disposal of our writ petition before Hon'ble High Court of Jharkhand.
- b) value of iron ore produced from April 21, 2014 to July 17, 2014 amounting to ₹421.83 crore to be paid in maximum 3 instalments.
- c) value of iron ore produced from July 18, 2014 to August 31, 2014 i.e. ₹152.00 crore to be paid immediately

District Mining Officer Chaibasa on March 16, 2015 issued a demand notice for payment of ₹421.83 crore, in three monthly instalments. The Transferee Company on March 20, 2015 replied that since the lease has been extended by application of law till March 31, 2030, the above demand is not tenable. The Transferee Company has paid ₹50.00 crore under protest on July 27, 2015, because the State had stopped issuance of transit permits.

The Transferee Company filed another writ petition before the Hon'ble High Court of Jharkhand which was heard on September 9, 2015. An interim order was given by the Hon'ble High Court of Jharkhand on September 17, 2015 wherein the Court has directed the Transferee Company to pay the amount of ₹371.83 crore in 3 equal instalments, first instalment by October 15, 2015, second instalment by November 15, 2015 and third instalment by December 15, 2015.

In view of the interim order of the Hon'ble High Court of Jharkhand ₹124.00 crore was paid on September 28, 2015, ₹124.00 crore on November 12, 2015 and ₹123.83 crore on December 14, 2015 under protest.

The case is pending before the Hon'ble High court for disposal. The State issued similar terms and conditions to other mining lessees in the State rendering the mining

as illegal. Based on the Transferee Company's assessment of the Goa mines judgement read with the Ordinance issued in the year 2015, the Transferee Company believes that it is remote that the demand of the State would sustain.

- iii. The Supreme Court of India vide its order dated September 24, 2014, cancelled the coal blocks allocated to various entities which includes one coal block allocated to the Tata Steel BSL Limited (entity merged with the Transferee Company) which were under development. Subsequently, the Government of India has issued the Coal Mines (Special Provision) Act 2015, which inter-alia deal with the payment of compensation to the affected parties in regard to investment in coal blocks. The receivable in respect of de-allocated coal block amounts to ₹414.56 crore (net of provision of ₹138.74 crore). The Transferee Company has filed its claim for compensation in respect of New Patrapada Coal Block, with the Government of India, Ministry of Coal. Pursuant to letter dated November 22, 2019, Ministry of Coal ('MoC') informed that all statutory license, consent approvals, permission required for undertaking of Coal mining operations in New Patrapara Coal Mine now vested to Singareni Collieries Company Ltd. MoC /Union of India, filed supplementary affidavit dated February 11, 2020 before Delhi High Court vide which it has informed that payment of compensation can be paid to prior allottee after the mine is successfully allotted and compensation is deposited by successful allottee, following the sequence mentioned in section 9 of Coal Mine (Special Provisions) Act, 2015. It has been informed that New Patrapara Coal Mine has been allocated to Singareni Collieries Company Ltd (SCCL, a state Government Undertaking) and compensation to the prior allottee to be released. MoC vide order dated May 17, 2021 has directed SCCL to pay aforesaid compensation to TSBSL (entity merged with the Transferee Company). Later, the SCCL also has voluntarily surrendered the coal block. The case pertaining to several issues related to surrender of coal block and recovery of compensation is pending in Delhi HC in Writ Petition No. 6293 of 2016, which is pending.

Tata & Others was filed by a small group of shareholders in the Bombay High Court (“**Court**”) against Tata Sons, its directors, and certain listed Tata companies (including Tata Steel Limited) in which Tata Sons has investments. This suit claims, inter alia, damages in the sum of INR 41,832 crore for alleged loss caused to all the non-promoter shareholders of those listed Tata companies owing to a fall in the share price of those companies allegedly due to the removal of Mr Cyrus P. Mistry as the executive Chairman of Tata Sons. Tata Sons had sought revocation of the leave granted by the Court permitting the Plaintiffs to institute the suit as a representative suit. By an order dated July 10, 2017 the Court revoked the earlier leave granted to the Plaintiffs, as a result the suit is no longer a representative suit. The Plaintiffs sought a stay of the order, which request was denied by the Court by its order dated July 11, 2017. The Plaintiffs have preferred an appeal from the aforesaid orders. The hearing of the appeal is awaited. Tata Sons believes this case is frivolous and without merit. Tata Sons is defending itself appropriately in accordance with the law. Based on legal advice, no financial liability for Tata Sons is foreseen at this stage. Any future liability in the case would depend on the final adjudication of the cases which is uncertain and, in any event, is unlikely to crystallise in a near-term.
