3. BACKGROUND

Some time in February, 2001, the Tata Iron & Steel Company Ltd. (the Transferee Company) along with its wholly owned subsidiary Kalimati Investment Company Ltd. (together referred to as “the Acquirers”) had vide a Letter of Offer dated 31st January, 2001 made an open offer to the public shareholders of the Transferor Company, under the provisions of regulation 11 of the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations 1997 (“the Take-over Code”) to acquire equity share of the Transferor Company at a price of Rs.27/- per fully paid-up equity share and of Rs.2/- per partly paid-up equity share.

Sometime in October, 2001, the Acquirers had in terms of the Letter of Offer dated 12th October, 2001 made a similar open offer as mentioned above to

shares of the Transferor Company at the same offer price as stated above. Subsequently the Acquirers made a final offer to purchase the outstanding public shareholding of the Transferor Company at the same price as aforesaid. The said final offer was open up to 16thFebruary, 2002 and an option was provided to the shareholders of the Transferor Company, who due to certain reasons were not in a position to accept the final offer, with an exit facility (“Exit Option”) at the same offer price for a period of six months from the opening date of the final offer i.e. till 16thJuly, 2002. As on date, the Transferee Company holds in the Transferor Company 3,02,04,004 fully paid up equity shares of Rs. 10/- each and 36,583 partly paid up equity shares thus comprising 95.28 % of the total paid-up capital in the Transferor Company. In compliance with the provisions of the Takeover Code, the Transferor Company had made an application to The Stock Exchange, Mumbai for de-listing the shares of the Transferor Company, and accordingly the equity shares of the Transferor Company have been re-listed from The Stock Exchange, Mumbai with effect from 8th October, 2002. As required by The Stock Exchange, Mumbai, the Transferee Company has undertaken to keep the Exit Option open in respect of the aforementioned de-listed shares of the Transferor Company at the aforesaid rate of Rs. 27/- per fully paid-up equity share and Rs 2/- per partly paid-up equity share for a period of one year from the date of de-listing i.e. till the 7th October, 2003, It may be clarified that upon the Scheme of Amalgamation becoming effective, there will not be any need for the Exit Option as the said shares will cease to exist upon the Transferor Company being dissolved without winding up.

3.1 The Transferee Company was incorporated in the year 1907 and has a presence across the entire value chain of steel manufacturing from mining and processing iron ore and coal, to producing and distributing finished products directly and through its subsidiaries. It is one of the world's top ten steel producer with a crude steel capacity of over 28 million tonnes. In addition it also manufactures tubes, bearings, refractories and pigments; conducts port operations; provides municipal services; and has investment activities. Its manufacturing facilities are mainly situated at Jamshedpur in the State of Jharkhand in India and Europe. Various plans and projects for expansion of its business are underway.

3.2 The Transferor Company was incorporated in the year 2005 as a joint venture Company of the Transferee Company and the Government of West Bengal with the object primarily of manufacturing metallurgical coke at Haldia (West Bengal). The Transferor Company has since established such coke oven plant at Haldia(West Bengal) adopting Heat Recovery route. The said plant commenced commercial production in September 2007 and has an existing capacity of 16,00,000 tonnes per annum (tpa). At present the Transferee Company vide a conversion contract consumes the entire coke produced by the Transferor Company.

Initially 98% of the capital of the Transferor Company was subscribed by the Transferee Company and the balance 2% by West Bengal Industrial Development Corporation Limited (WBIDC), a Company owned and controlled by the Government of West Bengal. WBIDC has since sold its stake in the Transferor Company. At present all shares of the Transferor Company are held by the Transferee Company. Accordingly, the Transferor Company is currently a wholly owned (100%) subsidiary of the Transferee Company.

3.3 In the circumstances and in view of commonality of business interests of the Transferor Company and the Transferee Company and synergistic linkages that exist between them, as indicated above, it is considered desirable and expedient to amalgamate the Transferor Company with the Transferee Company in the manner and on the terms and conditions stated in this Scheme of Amalgamation.

3.4 The amalgamation will enable appropriate consolidation of the activities of the Transferor Company and the Transferee Company with pooling and more efficient utilisation of their resources, greater economies of scale, reduction in

- 7 -

overheads and other expenses. The same will result, inter alia, from advantages of vertical integration of the operations of the said companies, including assured source of supply of raw materials, better Inventory management and reduction of working capital requirements which will be facilitated by and follow the amalgamation. The Scheme is proposed accordingly and will have beneficial results for the said Companies, their shareholders, employees and all concerned.

- C. The Transferor Company is a wholly owned subsidiary of the Transferee Company.
- D. In terms of the Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007, as amended from

time to time, Kalimati has been categorised as a "systemically important non-deposit taking non-banking financial company" based on its total asset size being more than Rs. 100,00,00,000/- (Rupees One Hundred Crore only). In terms of the said directions, Kalimati is subject to stringent compliance requirements. Further, its ability to borrow is restricted and it is dependent on the Transferee Company for funding.

E. In view of the above, and in order to:

- (a) simplify management structure, leading to better administration and a reduction in costs from more focused operational efforts, rationalization, standardisation and simplification of business processes, and the elimination of duplication, and rationalization of administrative expenses;
- (b) simplify shareholding structure and reduce shareholding tiers; and
- (c) direct and indirect tax efficiencies,

it is proposed that the Transferor Company be amalgamated with the Transferee Company, followed by the dissolution without winding up of the Transferor Company and the consequent cancellation of equity shares held by the Transferee Company in the Transferor Company pursuant to Sections 391 to 394 and other relevant provisions of the Act.

Since the Transferee Company is the sole shareholder of the Transferor Company, the shares of the Transferee Company in the Transferor Company will stand cancelled as a result of the amalgamation.

The amalgamation is not and does not arise as a result of the acquisition of the property of the Transferor Company by the Transferee Company pursuant to the purchase of such property by the Transferee Company or as a result of the distribution of such property to the Transferee Company after the winding up of the Transferor Company.

"11. That as per the report of Registrar of Companies, the Transferor Company No.2 has filed its Annual Return and Balance Sheet up to 2019-20 and the Transferee Company has filed its Annual Return and Balance Sheet up to 2019-20. No prosecution has been filed & no inspection or investigation has been conducted in respect of the Petitioner Companies. Vishwanathan which is in reference to the proposed scheme of Amalgamation of Tata Steel BSL Limited with the Tata Steel Limited in regard to share swap ratio of 15:1. He stated in the complaint that he is a public shareholder of Tata Steel BSL Limited, with current shareholding of 164205 shares. The said scheme was beneficial for all parties involved, when it was approved on 25.04.2019. But the Scheme could not be implemented due to reasons beyond the control companies involved. A gap of almost 2 years is enough for the change of matrices of the Valuation report, which is being relied upon now. The said scheme now is against the public/ minority shareholdings interest holding 27.35% equity share in Tara Steel BSL Limited for the following reasons.

A. Fair Exchange ratio of 15 Tata Steel BSL Limited (FV Rs. 21/-) for 1 share of Tata Steel Limited (FV Rs. 101/-), is based on valuation reports which is almost 2 years old and hence cannot be the basis as on date. And as an icon group Tata 's cannot accept the valuation report which is more than 6 month old, which is against all norms of Corporate Governance.

B. Public /Minority shareholding 27.35% share capital of Tata Steel BSL Limited as on date will be left with only 1.6285% of holding in amalgamated company Tata Steel Limited. The Scheme, if implemented as such will cause huge loss to the Public/ Minority shareholders of Tata Steel BSL Limited.

The complainant has requested that as fresh swap ratio should be computed by considering recent valuations of the company so that the interest of public shareholders is safeguarded.

II. RATIONALE AND PURPOSE OF THE SCHEME

A. Commercial rationale for amalgamation of the Transferor Company 1 with the Transferee Company

1. The Transferor Company 1 is a wholly owned subsidiary of the Transferee Company and was incorporated *inter alia* for the purpose of completing the acquisition of Transferor Company 2 by way of the CIR Process prescribed under the IBC Code.
2. The Transferor Company 1 holds the equity investment in Transferor Company 2 and is its holding company. Pursuant to the completion of the proposed amalgamation of the Transferor Company 2 into and with the Transferee Company, there would no longer be a requirement for the Transferor Company 1 to exist as a separate legal entity. This amalgamation would also result in simplification of the group structure of the Transferee Company.

5

- 3. The amalgamation will result in significant reduction in the multiplicity of legal and regulatory compliances required to be carried out by the Transferor Company 1 and the Transferee Company.
- 4. The Transferor Company 1 being a wholly owned subsidiary of the Transferee Company is under the management of the Transferee Company and it would be advantageous to amalgamate the two entities to ensure focused management in the Transferee Company thereby resulting in efficiency of management and maximizing value to the shareholders.
- 5. This amalgamation will also result in significant reduction of administrative, operational, financial, and managerial and such other costs.

B. Commercial rationale for amalgamation of the Transferor Company 2 with the Transferee Company

- 1. The Transferor Company 2 and the Transferee Company are engaged in the business of manufacture and sale of steel and steel products. The amalgamation will ensure focused management in the combined entity thereby resulting in efficiency of management and maximizing value for the shareholders. Such restructuring will lead to simplification of group structure by eliminating multiple companies in similar business.
- 2. The proposed amalgamation of the Transferor Company 2 with the Transferee Company in accordance with the terms of this Scheme would enable both the companies to realize benefits of greater synergies between their businesses, yield beneficial results and pool financial resources as well as managerial, technical, distribution and marketing resources of each other in the interest of maximizing value to their shareholders and the stakeholders.
- 3. The proposed amalgamation will be beneficial to both the Transferor Company 2 and the Transferee Company in the following manner:
 - (i) **Operational integration and better facility utilisation:** The amalgamation in accordance with this Scheme will provide an opportunity for reduction of operational costs through transfer of intermediary products between the companies, better order loads for the business through pooling of orders, synergies from sales and production planning across the businesses.
 - (ii) **Efficient raw material procurement and reduced procurement costs:** Synergy of operations will be achieved as a result of sustained availability of raw materials as well as reduced procurement costs for Transferor Company 2. The proposed amalgamation would ensure iron ore security for Transferor Company 2 from the captive mines of the Transferee Company. Similarly, combined sourcing of other raw materials such as coke, coal, pellet, and limestone by both the Transferor Company 2 and the Transferee Company would result in reduction in overall costs of

66

procurement for the amalgamating companies. Besides, certain requirements of the Transferor Company 2 such as ferro alloys and scrap could be directly met by the Transferee Company's production and procurement arms.

- (iii) **Operational Efficiencies:** The amalgamation would result in synergy benefits arising out of single value chain thereby reducing costs and increasing operational efficiencies. Centralization of inventory, from raw material to finished goods and spares, may enable better efficiency, utilization and overall reduction in working capital. The proposed amalgamation would likely result in optimized power consumption, reduced costs, sharing of best practices, cross-functional learnings, better utilisation of common facilities and greater efficiency in debt and cash management.
- (iv) **Rationalization of Procurement & Logistics costs:** Consolidation and optimization of stockyards could significantly reduce logistics and distribution costs for both the Transferor Company 2 and the Transferee Company. Clubbing of shipments may help reduce shipping costs, port terminal charges and ocean freight.
- (v) **Enhancing Value in Marketing:** With an overlap in products across the Transferor Company 2 and the Transferee Company, the combined entity would be better positioned to service customer needs. The Transferor Company 2 could expand its existing core market in North-India using the strong distribution channel and dealer network of the Transferee Company. Further, the Transferor Company 2 could also have access to the Transferee Company's branded product portfolio and marketing capabilities. The Transferee Company would benefit from complementary product offerings of the Transferor Company 2, resulting in a strong presence across market segments. The proposed amalgamation will result in access to new markets and product offerings as well as increased export volumes.
- (vi) **Improving Customer Satisfaction and Services:** The proposed amalgamation would make it easier to address needs of customers by providing them uniform product and service experience, on-time supplies, improved service levels thereby improving customer satisfaction. With common credit management, the customers are expected to benefit from the channel financing benefits from the combined entity.
- (vii) **Improved safety, environment and sustainability practices:** Increased coverage of plant automation can be achieved across plants of the Transferor Company 2, by using the Transferee Company's information technology applications and systems.

67

(viii) Thus, the proposed amalgamation is beneficial, advantageous and not prejudicial to the interests of the shareholders, creditors and other stakeholders of the Transferor Company 2 and the Transferee Company and is beneficial to the public at large.

In view of the aforesaid, the Board of Directors of the respective Companies have considered the proposed amalgamation of the entire undertaking and business of the Transferor Companies as a going concern into and with the Transferee Company to benefit the stakeholders of the respective Companies. Accordingly, the Board of Directors of the respective Companies have formulated this Scheme for the amalgamation of the Undertakings (as defined hereinafter) of the respective Transferor Companies into and with the Transferee Company pursuant to Sections 230 to 232 and other relevant provisions of the Act, and in accordance with section 2(1B) of IT Act (on a going concern basis) and other applicable Laws.
