<b>Hazardous Waste</b>			Not applicable

**PART – G**

**Impact of the pollution abatement measures taken on conservation of natural resources and on the cost of production.**

Sand, being coarse in nature and having high moisture content, does not get air borne during gathering & transportation. Sand stored in the sand yards is transferred to underground voids through surface bunkers in a slurry form. However, dust control measures while transporting of sand is in place through water tanker, coverage of trucks and optimal loading.

- Rs. 10 lakhs incurred for water spraying activities on transportation road.

**PART – H**

**Additional measures/ investment proposals for environmental protection including abatement of pollution, prevention of pollution**

Jharia Division of TATA Steel Ltd. is committed to improve safety and environment by strictly practicing Environmental Management System of company. Various programs are arranged such as World Environmental day, Annual Flower Show for public awareness. Also various initiatives like creation of herbal garden, butterfly-park have been taken to improve the aesthetic value and beautification of the area.

**PART – I**

**Any other particulars for improving the quality of environment**

1. We are providing safe drinking water from our water treatment plant & MADA to our employees.
2. We are regularly sprinkling water in an around the units, to suppress dust.
3. We provide dust mask to our employees to prevent exposure to dust in underground mines.
4. Regular monitoring of Air Quality & groundwater quality analysis by our separate Environment Cell.
5. Regular thrust on Environment awareness conducting training classes at P.T.I., Jamadoba.
6. We are an IMS certified unit (ISO 9001 & 14001 and OHSAS 18001 certified).
