Statements in this presentation describing the Company’s performance may be “forward looking statements” within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company’s operations include, among others, economic conditions affecting demand/supply and price conditions in the domestic and overseas markets in which the Company operates, changes in Government regulations, tax laws and other statutes and incidental factors.
Reduction continues in lost time injuries with Q1FY15 performance 18% better than FY14

Ambition to make Tata Steel sustainably fatality free progressing with focus on construction work, road safety and contractor management

Common H&S management system established across Tata Steel and further senior leadership training in H&S excellence
## Tata Steel continues to focus on engaging with communities and improving quality of life

### India

- Primary health care services delivered to more than 85,000 people through static clinics as well as mobile medical vans in areas of operations

- Almost 49,000 students of government schools in Jharkhand being catered through mid-day meal programme

- Nearly, 360 youth undergoing various vocational trades across locations.

### Europe

- Almost 7,000 children participated in the eighth annual Tata – Kids of Steel triathlon series in the UK this summer (May to July)

- Almost 2,000 people took part in the "Tata Steel Marquette Loop” running event near IJmuiden including 800 children who took part in a special Tata - Kids of Steel race

- Supported education initiative in Port Talbot to improve personal safety for 1,600 children
Financial Performance
Key highlights

Strong and growing presence in India
- Strong growth delivered with 11% YoY increase in Turnover and 13% YoY increase in EBITDA
- Investment in brands and pan-India marketing footprint yielding results in sluggish market
- Value-added downstream processing enriching product mix and improving margins

Europe stabilising
- Gradual improvement in financial performance despite y-o-y deterioration in spreads
- Focus on differentiated products, new product innovation and customer relationships
- Enhancing competitiveness through relentless focus on costs

Financial initiatives to strengthen the balance sheet
- Ongoing refinancing of US$7 billion
- Monetisation of non-core assets to unlock value
Financial Highlights
Quarter Ended 30th June’14

Deliveries
- Q1 FY14: 6.08 Mn T
- Q1 FY15: 6.46 Mn T
  Improvement: 6%

Turnover
- Q1 FY14: Rs. 32,805 Crore
- Q1 FY15: Rs. 36,427 Crore
  Improvement: 11%

EBITDA
- Q1 FY14: Rs. 3,755 Crore
- Q1 FY15: Rs. 4,325 Crore
  Improvement: 15%

Healthy improvement across geographies

* PBT and PAT includes exceptional loss of Rs.262 crores and Rs.46 crores in Q1 FY15 and Q4 FY14 respectively while Q1 FY14 included exceptional gain of Rs.18 crores
Debt Movement and Pension update

- Total liquidity of ~Rs.18,800 crores
- Capex incurred in Q1 FY15: Rs.3,055 crores
- BSPS and SPH pension funds: Net surplus* of £291 million at the end of Q1 FY’15

* As per IAS 19 (2008) Valuation
Financing and deleveraging initiatives

- Successful dual tranche debut USD bond issue of US$ 1.5 billion
  - USD 500 million 4.85% Unsecured Bonds due on January 31, 2020
  - USD 1 billion 5.95% Unsecured Bonds due on July 31, 2024

- Unlocking value through divestments of non-core assets
  - Divestment of Dhamra Port
  - Sale of land in Mumbai for Rs.1,155 crore

- Rating updates:
  - S&P upgraded its outlook on Tata Steel and Tata Steel UK to ‘Stable’ from ‘Negative’
  - Moody’s has put Tata Steel and Tata Steel UK ratings on ‘Review for Upgrade’
Operating Performance:
India and South East Asia
Decisive general elections results and signs of economic growth augurs well for the domestic steel industry

- Slow GDP growth has bottomed out
- PMI and IP moving up
- Steel demand is expected to improve gradually with focus on infrastructure and housing

Demand outlook stable in SE Asia. However, increasing imports hurting the domestic steel players.

Indian steel demand is poised to grow with improvement in the economy

Source: India Steel Vision 2020, Tata Steel Group Strategy, Markit
India – Superior volume growth in target segments

Strong volume growth in Auto segment
- 16% growth over the last year versus flattish growth for automotive steel and 12% growth in automotive industry
- Hi-End sales (Skin panel, Hi-tensile, GA) increased by 46%

Best ever sales in Branded Retail business
- Volume increased by 22%
- Pan India dealership base increasing from ~6,600 to ~7,500

In the Industrial Products segment, volume of Hi-End wire rod sales increased by 27%
### South East Asia – Operational improvement ongoing

KPO Phase–1 project update

- We have spent about Rs.17,600 crores on the project by the end of Q1 FY’15 of which about Rs.1,300 crores was spent in the last quarter.
- We continue to engage with the local community to improve their livelihood, education, health and vocational skills.

Expected commissioning by end-Q4 FY15
India:
- Pro-investment policies announced by the new government are likely to trigger a new growth cycle.
- While the near-term outlook remains sluggish due to seasonal factors; macro conditions are expected to improve in H2.

South East Asia:
- Construction outlook remains positive in the region. However, imports from China continue to adversely affect the spread.
- Thailand government has announced infrastructure projects. Consumer sentiment also improving in the recent months.
Operating Performance:
Europe
PMIs continue to indicate growth, although rates are more modest for the eurozone.

The depreciation of the euro and strong economic performances seen elsewhere should help to boost the eurozone economy.

Steel prices have trended down in Europe, in part due to falling raw material prices. However, stabilisation is expected as global prices remain steady.

EU steel demand expected to grow by +3.7% in 2014 as market conditions improve.

Source: Tata Steel Group Strategy, CRU, Markit
EBITDA bridge: Q1 FY’15 vs. Q1 FY’14

- Selling Result: £(119)m
- Cost Changes: £65m
- Production Volume: £16m
- Manufacturing: £37m
- Central & Other: £9m
- 3 months to Jun 2014: £99m
- 3 months to Jun 2013: £91m
Improved product mix and cost focus driving performance

Performance improvements continue
- Similar operational performance to a year ago
- EBITDA continued to improve, despite lower y-o-y spreads
- Rigorous approach to costs led to further £30m savings in Q1

Enhanced customer offering
- Maintained strong pace of new product launches – 10 so far this year, including for automotive manufacturers
- 20% increase in differentiated product sales in Q1 vs FY14
- Strengthened customer service offering for customers with new processing equipment
- Customer wins included North Sea pipeline
European business outlook

- Latest Eurofer forecast for steel demand in EU revised upwards to +3.7% for 2014, but growth expected to decelerate in the second half of calendar year
  - Growth of European steel market forecast to be 2.9% in CY 2015 as it continues to stabilise
  - Rising imports hampering EU mill deliveries
  - Raw material prices likely to remain stable in near term

- European operations remain focused on:
  - Improving focus on customers, enabling them to succeed in their own markets
  - Improving operational reliability
  - Reducing costs further
Raw Material Projects

Direct Shipping Ore Project, Canada

- Sales to re-commence from August onwards
- Wet Processing plant to be commissioned in Q4 FY’15 - will facilitate year-long operations
- Enhancement in iron reserves through exploration and JV for Howse deposit provides an option to increase capacity and life of the project

Benga Project, Mozambique

- 240kt of HCC shipped in Q1 FY’15
- Logistic issues and security considerations continue to affect productions in Q1 FY’15
- Impairment loss of Rs.1,577 crores recognised in Q1 FY’15
Regulatory update

- All our iron ore and coal produced from our mines is used for captive consumption

- The company has been operating its mines with all statutory clearances, such as environmental clearance, forest clearances, consent to operate etc. and also submitted applications for the renewal of the mining leases as per the time stipulated under law

- While the mining operations in Odisha were suspended for a fortnight following the Supreme Court order in May 2014, the State Government issued Express Order(s) that enabled the Company to resume its mining operations in two iron ore mines and two manganese mines in Odisha

- The Express Orders by the Government of Odisha for the Khondbond Iron Ore Mines and Sukinda Chromite Mines are still pending
  - Consequently, all operations in these mines are still suspended
  - This has led to stoppage of operations of our Ferro Alloys plants since the first week of August 2014
Thank You
