### RATING ACTION – Upgrade

Brickwork Ratings (BWR) upgrades the rating of unsecured non-convertible debenture (NCD) issues aggregating Rs.4000 Cr of Tata Steel Ltd. (TSL or the company) from BWR AA (Stable) to BWR AA+ (Stable)

The upgrade follows substantial improvement in the debt protection metrics of TSL on consolidated basis with reduction of consolidated Gross Debt by Rs. 32901 Cr during past three quarters and reduction of debt under European operations during Q1FY22 on the back of strong cash flow generation sequentially since 2QFY21 onwards with improved operating performance globally. As per management guidance, the Company plans to reduce Gross Consolidated Debt by minimum USD 1 Billion annually targeting sustained long term Net Debt to EBITDA of 2.0x.

TSL's European operations have been EBITDA positive for the second consecutive quarter in 1QFY22 as steel consuming sectors, especially automotive, continued to recover. Steel prices in India and Europe remained elevated driven by sharp demand recovery and supply tightness. Further, TSL's European debt which was at Rs. 18816 Cr as on March 31, 2021, has reduced to approximately Rs.13000 Cr as on June 30, 2021 (including FB facilities) with scheduled repayment of the term debt in FY26. European operations continue to be self-sufficient with no support from Indian operations. Given the current scenario of the demand in Europe, the European Operations of TSL are expected to be EBITDA positive.

The rating continues to derive strength from the professional management, group support and diversified product portfolio with backward-integrated operations in India in the form of captive iron ore and coal mines, making it one of the lowest-cost producers of steel and the market leader in EBITDA per tonne.

The rating is, however, constrained by the inherent risk associated with the steel industry, with volatility in raw material and finished goods prices.

The Stable outlook indicates the sustainability of current level of operations in the near future with a stable demand outlook and management guidance of reduction of gross debt going forward.

### **ANALYTICAL APPROACH AND APPLICABLE RATING CRITERIA**

BWR has analysed TSL on a consolidated basis. To arrive at its ratings, BWR has applied its rating methodology as detailed in the Rating Criteria below (hyperlinks provided at the end of this rationale).

### **KEY RATING DRIVERS**

#### **Credit Strengths:-**

**Key entity to Tata Group, with professional management** – Tata Steel is a key listed entity of the well-known Tata group, which has a track record of servicing borrowings and access to financial markets. The group is one of the largest conglomerates in India, with over 100 operating companies in key business sectors such as steel, automotive, information technology, engineering, energy, aviation, power, mining, consumer products and chemicals. The group, through its parent holding company for all group companies, Tata Sons Private Limited, owned a 32.93% stake in TSL as on 31 March 2021. The company is led by experienced and qualified management professionals.

**Captive iron ore and coal mines help maintain operating margins in high-input-cost scenario:** TSL's domestic operations are well-integrated with captive power and mining operations, which meet 100% of its iron ore requirements and around 29% of its metallurgical coal requirements (excluding Tata Steel Bhushan Ltd. (TSBSL) and Tata Steel Long Products Limited). Therefore, TSL (India operations) is among the most low-cost steel producers. TSL's Indian operations continue to be the highest EBITDA generators among peers.

**Diversified product portfolio:** TSL is geographically diversified steel producers, with operations in various countries and a commercial presence in more than 50 countries globally. The company's product mix includes flat products such as hot rolled coils, cold rolled coils and galvanise steel, and long products such as wire rods, rebar, ferro alloys, tubes, bearings and wires. The product segments cater to agriculture, automotive, construction, consumer goods, energy and power, engineering and material handling, among others.

**Focus on strengthening Indian market:** Tata Steel's key market is still India, which accounts for 61% of its global steel volumes sold, 58% of consolidated revenues and 93% of consolidated operating profit as a result of a strong operating environment and the company's backward integration into producing its key raw materials of iron ore and coking coal. The acquisition of the steel business of UML has further helped strengthen Tata Steel's business profile. During 1QFY22, Indian Operations earned an EBITDA per tonne of Rs. 33604, which is the highest among its peers for its Indian operations.

The Company spent Rs.2011 Cr on capex during 1QFY22; work on the Pellet Plant, the Cold Roll Mill complex and the 5 MTPA expansion at Kalinganagar is ongoing. Total capex required for expansion of Kalinganagar plant is around Rs.23000 CR of which around Rs.6000 Cr is incurred till 31st March 2021. It is expected to be completed by FY24.

**Improved debt protections metric with deleveraging and improvement in operating cash flows:**

After a challenging 1HFY21 due to Covid-19-led uncertainties and complexities, an improvement was witnessed in steel prices and demand, with the opening up of global, as well as domestic economy, and the revival of the end-user industry segment, including infrastructure and automobiles. During FY21, on a consolidated basis, the company earned revenue of Rs. 156294 Cr and an EBITDA of Rs. 30892 Cr as against revenue of Rs. 148972 Cr and an EBITDA of Rs. 18103 Cr in FY20 and earned EBITDA per ton of Rs.10838. The improvement continued in 1QFY22 as well with the company reporting revenue of Rs. 53372 Cr (6.8% QoQ increase) and EBITDA of Rs.16273 CR (12.6% QoQ increase). Consolidated EBITDA per tonne in 1QFY22 increased to Rs. 22779 as against Rs. 18253 in 4QFY21.

With strong operating cash flows, the company repaid gross debt of approximately Rs.32091 Cr during the last three quarters, leading to its reduction from Rs. 116328 Cr as on 31 March 2020 to Rs. 84237 Cr as on June 30, 2021. As per the guidance shared by the management, the company will continue to thrive for debt reduction in FY22 as it is planning to reduce a minimum of US dollar 1 bn every year with the target to achieve sustained net debt to EBITDA of 2.0x.

There has been Improvement in performance across geographies. Although the FY21 EBITDA was negative for European Operations, it is reporting positive EBITDA consistently during the last two quarters – 4QFY21 – EBITDA of Rs.1194 Cr and 1QFY22 – EBITDA of Rs. 1533 Cr. Given the current scenario, higher steel prices and improved demand for the European Operations of TSL are expected to be EBITDA positive. Debt of European operations which was at Rs. 18816 Cr as on March 31, 2021, has reduced to approximately Rs.13,000 Cr as on June 30, 2021 (including FB facilities) with scheduled repayment of the term debt in FY26.

With its operating efficiency and demand revival in the economy, BWR expects TSL to sustain the current operating performance in the near to medium term.

**Credit Risks:-**

**Volatility of raw material prices:** The company's margins are exposed to volatility in raw material prices, which are ultimately passed on to customers

**LIQUIDITY INDICATORS (Strong):**

As on June 30, 2021, on consolidated basis, the company had liquidity of Rs.20295 Cr with cash and cash equivalent of Rs. 10264 Cr and unutilised working capital lines of Rs.10,431 Cr.

## KEY RATING SENSITIVITIES:

### Positive:

- A sustained improvement in revenue and profitability debt coverage indicators.

### Negative:

- A deterioration in revenue and profitability with decline in debt coverage indicators

## COMPANY PROFILE

Tata Steel Ltd. (TSL) was established in 1907 and is one of the flagship companies of Tata Group. The company is one of the most geographically diversified steel producers, with operations in 26 countries and a commercial presence in more than 50 countries. The company's product mix includes flat products such as HR coils, CR coils and galvanised steel, and long products such as wire rods, rebar, ferro alloys, tubes, bearings and wires. The company also owns coal, iron ore, and manganese and chrome mines at various locations. The company is 100% backward-integrated with respect to the iron ore requirement and 29% backward-integrated for the coal requirement for domestic operations.

In June 2016, the company sold its UK longs business, including Scunthorpe Steel Works (with a capacity of 4.5 MTPA) to Greybull Capital. The company now has two principal facilities in the Netherlands and UK with a total steel production capacity of 12.6 MTPA.

TSL acquired TSBSL (Tata Steel BSL Ltd. (erstwhile Bhushan Steel Ltd.) in May 2018, having an installed capacity of around 5.6 MTPA).

TSL has completed the acquisition of Usha Martin's steel business through Tata Sponge Iron Limited (currently Tata Steel Long products limited), a subsidiary of Tata Steel, for a cash consideration of Rs. 4,094 Cr. It comprises a specialised, approximately 1-MTPA alloy-based manufacturing capacity, in the long products segment based in Jamshedpur, and captive power plants.

BWR wishes to inform all persons who may come across Rating Rationales and Rating Reports provided by BWR that the ratings assigned by BWR are based on information obtained from the issuer of the instrument and other reliable sources, which in BWR's best judgement are considered reliable. The Rating Rationale / Rating Report & other rating communications are intended for the jurisdiction of India only. The reports should not be the sole or primary basis for any investment decision within the meaning of any law or regulation (including the laws and regulations applicable in Europe and also the USA).

BWR also wishes to inform that access or use of the said documents does not create a client relationship between the user and BWR.

The ratings assigned by BWR are only an expression of BWR's opinion on the entity / instrument and should not in any manner be construed as being a recommendation to either, purchase, hold or sell the instrument.

BWR also wishes to abundantly clarify that these ratings are not to be considered as an investment advice in any jurisdiction nor are they to be used as a basis for or as an alternative to independent financial advice and judgement obtained from the user's financial advisors. BWR shall not be liable to any losses incurred by the users of these Rating Rationales, Rating Reports or its contents. BWR reserves the right to vary, modify, suspend or withdraw the ratings at any time without assigning reasons for the same.

BWR's ratings reflect BWR's opinion on the day the ratings are published and are not reflective of factual circumstances that may have arisen on a later date. BWR is not obliged to update its opinion based on any public notification, in any form or format although BWR may disseminate its opinion and analysis when deemed fit.

Neither BWR nor its affiliates, third party providers, as well as the directors, officers, shareholders, employees or agents (collectively, "BWR Party") guarantee the accuracy, completeness or adequacy of the Ratings, and no BWR Party shall have any liability for any errors, omissions, or interruptions therein, regardless of the cause, or for the results obtained from the use of any part of the Rating Rationales or Rating Reports. Each BWR Party disclaims all express or implied warranties, including, but not limited to, any warranties of merchantability, suitability or fitness for a particular purpose or use. In no event shall any BWR Party be liable to any one for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees, or losses (including, without limitation, lost income or lost profits and opportunity costs) in connection with any use of any part of the Rating Rationales and/or Rating Reports even if advised of the possibility of such damages. However, BWR or its associates may have other commercial transactions with the company/entity. BWR and its affiliates do not act as a fiduciary.

BWR keeps certain activities of its business units separate from each other in order to preserve the independence and objectivity of the respective activity. As a result, certain business units of BWR may have information that is not available to other BWR business units. BWR has established policies and procedures to maintain the confidentiality of certain non-public information received in connection with each analytical process.

BWR clarifies that it may have been paid a fee by the issuers or underwriters of the instruments, facilities, securities etc., or from obligors.
