Dear Sir, Madam,

Sub: Submission of Press Release and Investor Presentation to be made to Analysts/Investors

Please find enclosed herewith the press release titled "Tata Steel reports Consolidated EBITDA of Rs 6,122 crores for the quarter ended June 30, 2023" and investor presentation to be made to Analysts/Investors on the Financial Results of Tata Steel Limited for the quarter ended June 30, 2023

This presentation is being submitted in compliance with Regulation 30(6) of the SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015, as amended.

These are also being made available on the Company's website www.tatasteel.com

This is for your information and records.

Thanking you.

Yours faithfully, Tata Steel Limited

Parvatheesam Kanchinadham Company Secretary & Chief Legal Officer (Corporate & Compliance)

Encl: As above

TATA STEEL LIMITED

Mumbai, July 24, 2023

Tata Steel reports Consolidated EBITDA of Rs 6,122 crores for the quarter ended June 30, 2023

Highlights:

- Consolidated Revenues for the quarter stood at Rs 59,490 crores. EBITDA was Rs 6,122 crores and EBITDA margin was 10%.
- Consolidated Profit after Tax stood at Rs 525 crores. Profitability was affected by non-cash deferred tax charge on account of buy-in transaction at British Steel Pension Scheme. With this, the insurance buy-in of BSPS has been completed, successfully derisking Tata Steel UK.
- The company has spent Rs 4,089 crores on capital expenditure during the quarter. Work on 5 MTPA expansion at Kalinganagar and EAF mill of 0.75 MTPA in Punjab is progressing.
- Net debt stands at Rs. 71,397 crores. Our group liquidity remains strong at Rs 30,569 crores.
- India¹ revenues were Rs 34,901 crores and EBITDA was Rs 7,514 crores
 - Crude steel production was around 5 million tons and was up 2% YoY primarily driven by ramp up at Neelachal Ispat Nigam Limited.
 - Deliveries at 4.8 million tons were higher by 18% on YoY basis, driven by rise in domestic deliveries.
 Broad based improvement was witnessed across key end use segments.
 - EBITDA was Rs.7,514 crores which translates into EBITDA per ton of Rs 15,651 and EBITDA margin of 22%
- Europe revenues were £2,083 million and EBITDA loss stood at £153 million.
 - The planned relining of BF6 at Tata Steel Netherlands commenced in April and this has led to drop in crude steel production.
 - o Liquid steel production was 1.79 million tons while deliveries stood at 1.99 million tons.

Financial Highlights:

Key Profit & Loss account items (All	India ¹			Consolidated		
figures are in Rs. Crores unless stated otherwise)	1QFY24	4QFY23	1QFY23	1QFY24	4QFY23	1QFY23

Deliveries (mn ton)	4.80	5.15	4.07	7.20	7.78	6.62
Turnover	34,901	36,576	34,015	59,490	62,962	63,430
Reported EBITDA	7,514	8,091	9,582	6,122	7,225	15,047
Reported EBITDA per ton (Rs. Per ton)	15,651	15,715	23,557	8,503	9,289	22,717
Adjusted EBITDA ³	7,569	8,320	8,270	6,238	7,225	14,348
Adjusted EBITDA per ton (Rs. Per ton)	15,765	16,160	20,332	8,664	9,288	21,661
PBT before exceptional items	5,424	5,851	7,903	1,842	3,309	11,945
Exceptional Items (gain)/loss	11	699	55	(13)	(12)	39
Reported Profit after Tax	4,017	3,497	5,783	525	1,566	7,714

1. India includes Tata Steel Standalone and Tata Steel Long Products on proforma basis adjusted for intercompany purchase and sale;

2. Production numbers for consolidated financials are calculated using crude steel for India, liquid steel for Europe and saleable steel for SEA; 3. Adjusted for changes on account of FX movement on intercompany debt / receivables

NEWS RELEASE

Management Comments:

Mr. T V Narendran, Chief Executive Officer & Managing Director:

"During the quarter, global economic recovery continued to face headwinds affecting commodity prices including steel. In India, domestic steel demand continued to grow and was up around 10% on YoY basis but steel spot prices moderated in line with global cues. Tata Steel delivered steady performance, with India crude steel production of around 5 million tons. Domestic deliveries were up >20% and grew at a faster pace than India's apparent steel consumption. We saw strong growth in key segments such as Branded Products & Retail and Industrial Products & Projects. which grew by 37% and 24% respectively, on YoY basis. Our retail sales majorly to individual home builders crossed 3 million tons in the last 12 months and we now service 8,000+ out of ~19,100 pin codes in India. I am happy to share that Neelachal Ispat Nigam Limited has begun to stabilise and is operating close to rated capacity within just 9 months of acquisition. The 5 MTPA expansion at Kalinganagar is underway with facilities getting commissioned in a phased manner. This is an important milestone in our journey to grow to 40 million tons and will aid in further consolidating our market position in India. We continue to progress on our sustainability journey and multiple initiatives are underway, calibrated to each operating location. In Netherlands, we are pursuing Roadmap+ program to bring about a significant reduction in emissions, dust, odour and noise. We are also engaged in discussions with technology providers and the government for transitioning to greener steel."

Mr. Koushik Chatterjee, Executive Director and Chief Financial Officer:

"Tata Steel Consolidated revenues for the quarter stood at Rs 59,490 crores and consolidated EBITDA stood at Rs 6,122 crores, which translates to an EBITDA per ton of Rs 8,503. Despite a moderation in global steel spreads, our margin was broadly stable at around 10%. India business generated higher margin of around 22% and EBITDA stood at Rs 7,514 crores. Standalone revenues stood at Rs 32,342 crores and EBITDA was Rs 7,348 crores, which translates to an EBITDA per ton of ~Rs 15,895. In Europe, margins were broadly similar on QoQ basis as rise in revenue per ton was offset by lower volumes and elevated input costs. In UK, the buy-in transaction for the residual liabilities of British Steel Pension Scheme has been completed, successfully derisking Tata Steel UK. Volatility in steel markets have impacted working capital and cash flows but we continue to commit to growth in India and spent Rs 4,089 crores on capital expenditure during the quarter. This has led to a Net debt of Rs 71,397 crores. Group liquidity position remains strong at Rs 30,569 crores, which includes Rs 19,043 crores of cash and cash equivalents. We remain focused on cost optimisation, operational improvements and working capital management to maximise cashflows. Sustainability is at the core of our strategy which includes providing comprehensive disclosures. We recently published our first Business Responsibility and Sustainability Report and are actively involved in the development of global and national standards with respect to sustainability disclosures."

NEWS RELEASE

About Tata Steel

- Tata Steel group is among the top global steel companies with an annual crude steel capacity of 35 million tonnes per annum.
- It is one of the world's most geographically diversified steel producers, with operations and commercial presence across the world.
- The group recorded a consolidated turnover of ~US\$30.3 billion in the financial year ending March 31, 2023.
- A Great Place to Work-CertifiedTM organisation, Tata Steel Limited, together with its subsidiaries, associates, and joint ventures, is spread across five continents with an employee base of over 77,000.
- Tata Steel has announced its major sustainability objectives including Net Zero Carbon by 2045, Net Zero Water consumption by 2030, improving Ambient Air Quality and No Net loss in Biodiversity by 2030.
- The Company has been on a multi-year digital-enabled business transformation journey intending to be the leader in 'Digital Steel making by 2025'. The Company has received the World Economic Forum's Global Lighthouse recognition for its Jamshedpur, Kalinganagar and IJmuiden Plants.
- Tata Steel aspires to have 25% diverse workforce by 2025. The Company has been recognised with the World Economic Forum's Global Diversity Equity & Inclusion Lighthouse 2023.
- The Company has been a part of the DJSI Emerging Markets Index since 2012 and has been consistently ranked amongst top 10 steel companies in the DJSI Corporate Sustainability Assessment since 2016.
- Tata Steel's Jamshedpur Plant is India's first site to receive ResponsibleSteelTM Certification.
- Received Prime Minister's Trophy for the best performing integrated steel plant for 2016-17, 2023 Steel Sustainability Champion recognition from worldsteel for six years in a row, 2022 'Supplier Engagement Leader' recognition by CDP, Top performer in Iron and Steel sector in Dun & Bradstreet's India's top 500 companies 2022, Ranked as the 2023 most valuable Mining and Metals brand in India by Brand Finance, and 'Most Ethical Company' award 2021 from Ethisphere Institute.
- Received 2022 ERM Global Award of Distinction, 'Masters of Risk' Metals & Mining Sector recognition at The India Risk Management Awards for the seventh consecutive year, and Award for Excellence in Financial Reporting FY20 from ICAI, among several others.

Performance update

Slowdown in global economy has weighed on steel prices and spot spreads across regions

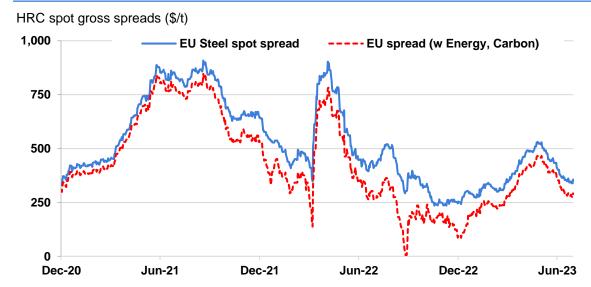

- Global steel prices moderated in the May June period on sustained concerns about global recovery, esp. relating to China
- In China, stable production and subdued demand led to steel exports in June being >7.5 mn tons. May exports were the highest monthly figure since Sep 2016

China Steel spot spreads (Domestic, Export)

- Raw material prices also moved lower during this period. Coking coal prices declined >25% to \$220/t levels while Iron ore prices were down around 10% to \$110/t
- Overall, Steel spot spreads moderated across the regions especially on demand dynamics. EU steel spot spreads were above \$250/t levels

EU Steel spread including energy, carbon costs

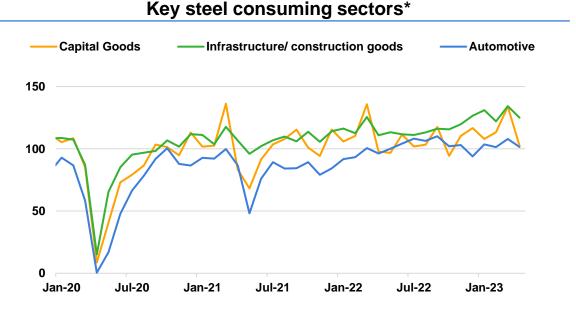

Sources: World Steel Association, IMF, Bloomberg, Steelmint; China HRC export spread = China HRC export FOB – 1.65x Iron Ore (62% Fe CFR) - 1x Coal (Premium HCC CFR); China HRC domestic spot spread is with China HRC domestic prices; EU HRC spot spreads = HRC (Germany) - 1.6x iron ore (fines 65%, R'dam) - 0.8x premium hard coking coal (Aus) - 0.1x scrap (HMS, R'dam); EU spot spread incl. energy = EU HRC spot spread – Carbon cost – 0.5 x NG (\$/Mwh) – 0.15 x Electricity (\$/Mwh)

India steel demand continued to grow; European steel demand weighed down by economic slowdown India

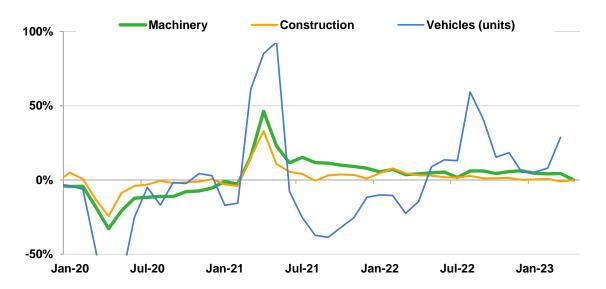

- Indian apparent steel consumption was up around 10% on YoY basis in 1QFY24
- Infrastructure / Construction continued to improve while auto production was up 3% YoY during 1QFY24

Europe

- Eurozone manufacturing PMI was at 43 in June, indicating the persistent concerns about economic activity
- ECB has hiked rates by 400 bps in the last twelve months. Inflation is presently at around 5.5%

Key steel consuming sectors (%, YoY growth)

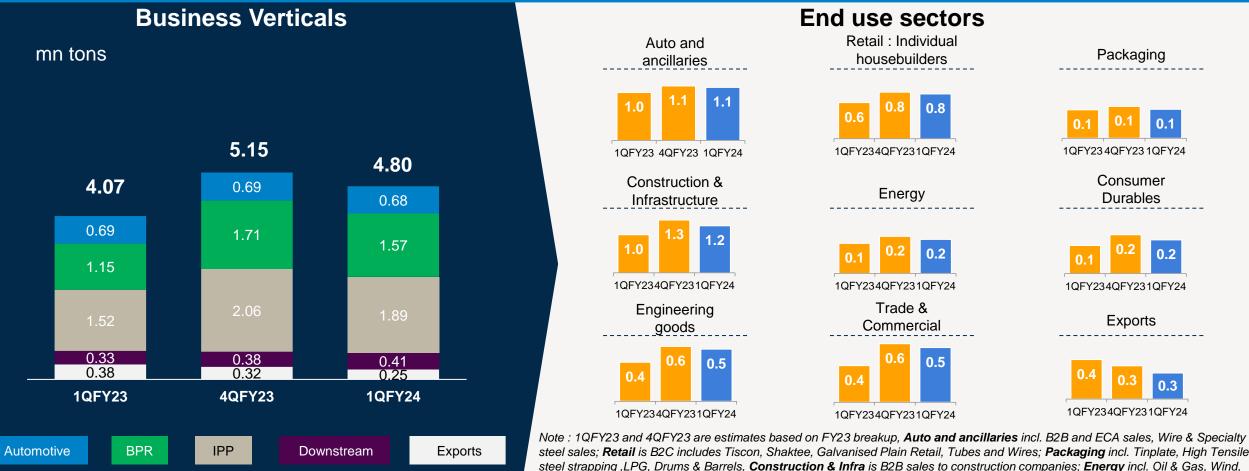

Sources: Bloomberg, SIAM, Joint Plant Committee, MOSPI, CMIE, Eurostat and Tata Steel, *Figures of Industrial Production for Capital Goods, Infrastructure/Construction, consumer durables and railways are rebased to Nov'18=100 using FY12 index based 1 Q sector weights; number of units produced as per SIAM; growth of key steel consuming sector is calculated by removing sub-segments which do not consume steel, ECB – European Central Bank

Steady increase in India sales to chosen segments

Domestic deliveries up >20% YoY on improving demand

Business to Consumer and LPG – Liquefied Petroleum Gas

Solar etc.; Consumer Durables is sales to Furniture, Appliances; Engineering incl. Shipbuilding, Railways and Capital Goods etc.;

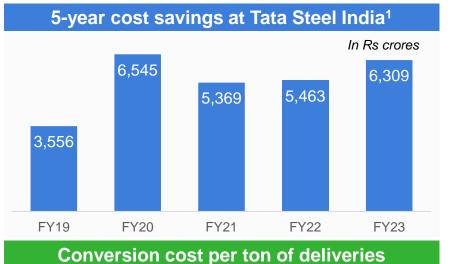

and Trade & Commercial is sales to rerollers, fabrication etc., B2B – Business to Business, ECA – Emerging Corp. accounts, B2C –

20

Focused on staying cost competitive through business cycles Cost improvement initiatives to optimise cash flows

Scaling up Iron ore mining capacity 6 MTPA pellet plant commissioned at Tata Steel Kalinganagar in India Improving logistics - Slurry pipeline, **Inland waterways**

Note : ¹ India incl. Tata Steel Standalone and Tata Steel Long Products, CPI – Consumer Price Index

Tata Steel Consolidated

(All figures are in Rs. Crores unless stated otherwise)	1QFY24	4QFY23	1QFY23
Production (mn tons) ¹	7.13	7.80	7.74
Deliveries (mn tons)	7.20	7.78	6.62
Total revenue from operations	59,490	62,962	63,430
Raw material cost ²	25,961	25,988	31,319
Change in inventories	1,515	2,668	(8,099)
Employee benefits expenses	5,925	5,795	5,963
Other expenses	20,915	21,291	19,273
EBITDA	6,122	7,225	15,047
Adjusted EBITDA ³	6,238	7,225	14,348
Adjusted EBITDA per ton (Rs.)	8,664	9,288	21,661
Other income	1,177	170	268
Finance cost	1,825	1,794	1,218
Pre exceptional PBT	1,842	3,309	11,945
Exceptional items (gain)/loss	(13)	(12)	39
Tax expenses	1,331	1,755	4,192
Reported PAT	525	1,566	7,714
Other comprehensive income	(3,173)	(195)	(6,611)

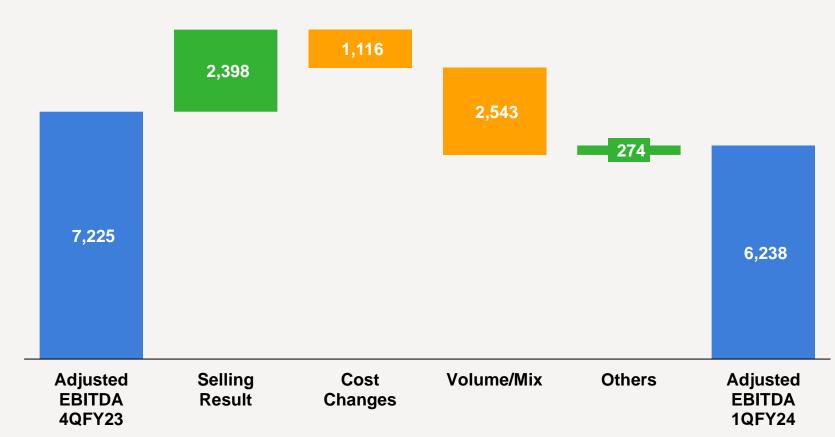

Key drivers for QoQ change:

- Revenues: decreased by 6% due to lower volumes, partly offset by higher realisations across geographies
- Raw Material cost: was broadly similar as increase in India was mostly offset by decline at Europe due to relining of one of the blast furnaces
- Change in inventories: primarily due to drawdown in Europe
- Other expenses: decreased on lower emission rights costs and repairs, which were partly offset by higher royalty and power related expenses
- Other Income: primarily increased on execution of long-term lease agreement with Tata BlueScope with respect to color coated lines at Angul and Khopoli
- Other comprehensive income: primarily relates to remeasurement loss on defined benefit plans

1. Production Numbers: Standalone & Tata Steel Long Products - Crude Steel Production, Europe - Liquid Steel Production; SEA - Saleable Steel Production. 2. Raw material cost includes raw material consumed, and purchases of finished and semi-finished products. 3. Adjusted for changes on account of FX movement on intercompany debt / receivables. BSPS - British Steel Pension Scheme

Consolidated 1QFY24 EBITDA¹ stood at Rs 6,238 crores

EBITDA margin was broadly stable at 10%

in Rs crores

- Selling Result: driven by higher realisations in India and Europe
- Cost Changes: due to increase in raw material costs especially coking coal
- Volume/Mix: primarily driven by lower deliveries in India and Europe
- Others: majorly relates to lower emission rights costs at Europe

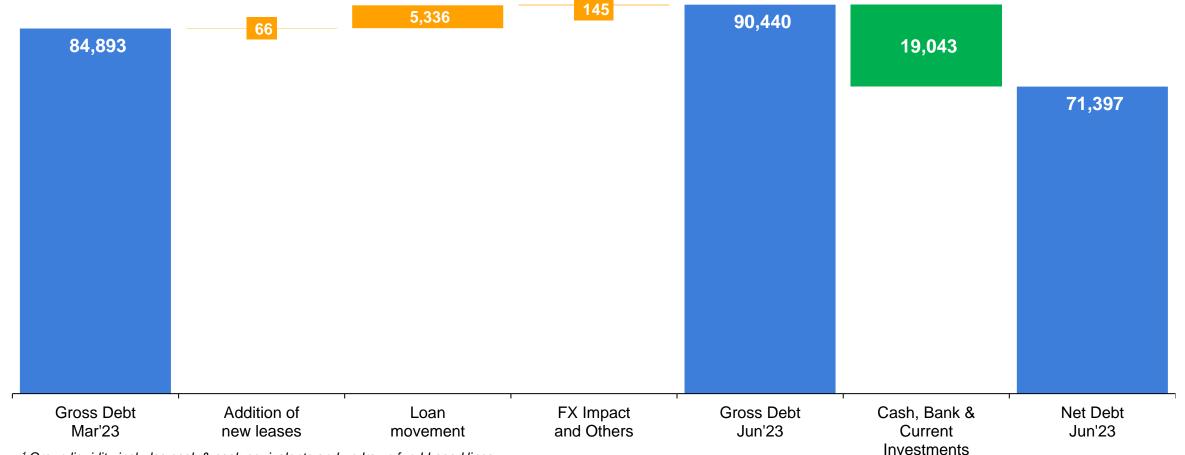

in Rs crores

TATA STEEL

Net debt stood at Rs 71,397 crores

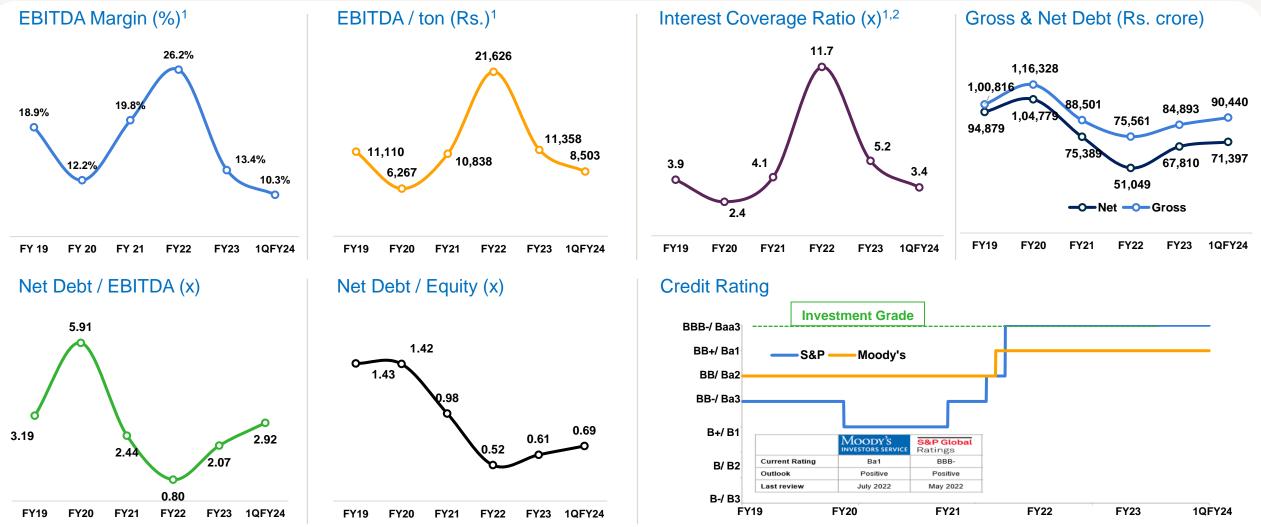

Group liquidity remains strong at Rs 30,569¹ crores

¹ Group liquidity includes cash & cash equivalents and undrawn fund-based lines

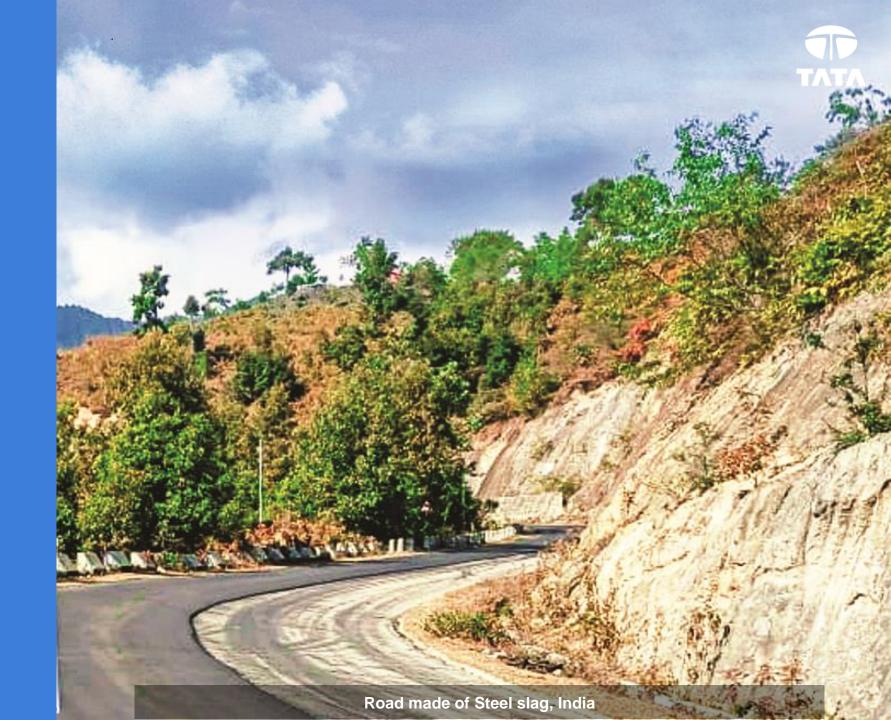

Key financial credit metrices

Note : All data is on consolidated basis; 1. FY20 and FY21 incl. Southeast Asia Operations which is reclassified as continuing operations; 2. Interest Coverage Ratio: EBITDA / Interest

Change in inventories	(520)	1,471	(4,562)
Employee benefits expenses	1,565	1,820	1,540
Other expenses	10,127	9,646	8,139
EBITDA	7,348	8,089	9,616
Adjusted EBITDA ²	7,403	8,318	8,304
Adjusted EBITDA per ton (Rs.)	16,014	16,719	21,326
Other income	1,642	665	736
Finance cost	1,016	1,038	722
Pre exceptional PBT	5,753	6,386	8,237
Exceptional items (gain)/loss	11	699	55
Tax expenses	1,471	1,666	2,068
Reported PAT	4,271	4,021	6,114
Other comprehensive income	159	66	4

Key drivers for QoQ change:

- Revenues: decreased on lower volumes, partly offset by higher net realisations
- Raw Material cost: primarily increased due to higher coking coal consumption cost and purchase of scrap
- Other expenses: increased on higher royalty and rates & taxes, partly offset by lower repairs to machinery
- Other Income: was higher on on execution of long-term lease agreement with Tata BlueScope with respect to color coated lines at Angul and Khopoli
- Exceptional items: primarily reflects charge relating to Employee Separation Scheme
- Tax expenses: decreased inline with profitability

29

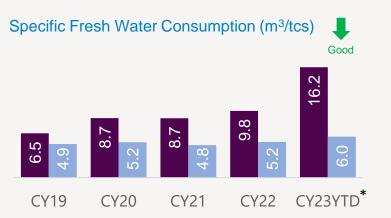

TATA STEEL

TSUK

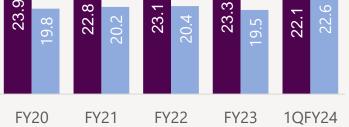

TSN

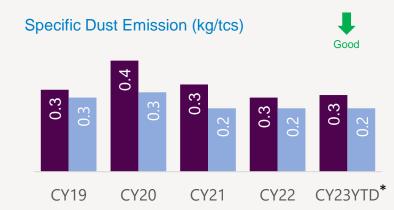

Key operating parameters

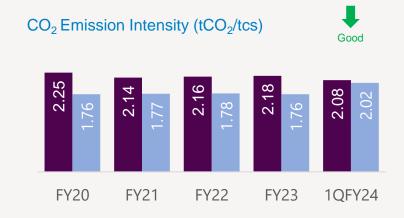

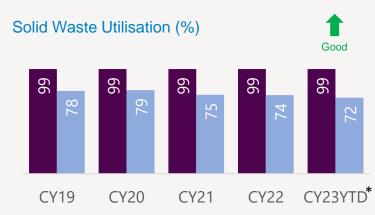

Note : TSUK and TSN report KPIs on a calendar basis aligned to regulatory requirements in their geographies, TSN parameters have been affected by ongoing reline of one of the blast furnaces, CO₂ emission intensity as per worldsteel methodology, *CY23YTD is an estimate

Tata Steel Europe

(All figures are in Rs. Crores unless stated otherwise)	1QFY24	4QFY23	1QFY23
Liquid Steel production (mn tons)	1.79	2.27	2.44
Deliveries (mn tons)	1.99	2.16	2.14
Total revenue from operations	21,335	22,036	25,961
Raw material cost ¹	9,014	10,132	11,162
Change in inventories	2,043	1,148	(2,563)
Employee benefits expenses	3,820	3,448	3,929
Other expenses	8,063	8,942	7,415
EBITDA	(1,569)	(1,641)	6,037
EBITDA per ton (Rs.)	(7,890)	(7,610)	28,220

1. Raw material cost includes raw material consumed, and purchases of finished and semi-finished products

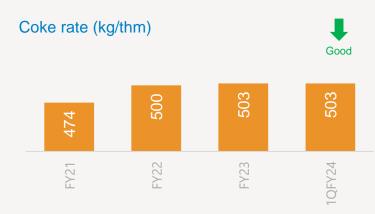

Key drivers for QoQ change:

- Revenues: were lower on reduction in volumes, this was partly offset by increase in realisations
- Raw Material cost: was lower QoQ due to drop in production on reline of one of the blast furnaces at ljmuiden
- Change in Inventories: charge was on consumption of slab stock inventory
- Other Expenses: decreased on lower emission rights costs, consumables and repairs on QoQ basis
- Employee benefits expenses: increased due to higher social security costs

Tata Steel Long Products

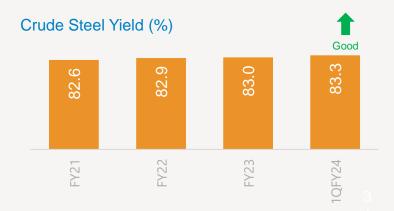

Key operating parameters

Note : CO₂ emission intensity calculated as per worldsteel methodology, PCI - Pulverised Coal Injection

Tata Steel Long Products (Consolidated with NINL)

(All figures are in Rs. Crores unless stated otherwise)	1QFY24 ¹	4QFY231	1QFY23
Total revenue from operations	3,568	3,016	1,994
Raw material cost ²	2,194	1,922	1,665
Change in inventories	154	25	(147)
Employee benefits expenses	107	117	61
Other expenses	951	995	484
EBITDA	166	2	(34)
EBITDA per ton (Rs.) ³	4,689	46	(1,956)
EBITDA Margin (%)	5%	-	-
Reported PAT	(254)	(524)	(331)

1. Post acquistion of NINL, figures for 1QFY24 and 4QFY23 are on consolidated basis

2. Raw material cost includes raw material consumed, and purchases of finished and semi-finished products

3. EBITDA/Steel deliveries

Key drivers for QoQ change:

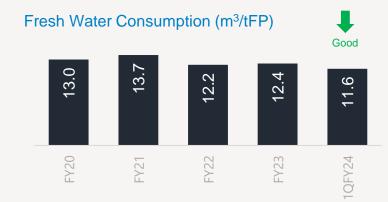

- Revenues: increased driven by ramp up at NINL, which is presently operating at run rate of around 1 MTPA (crude steel + pig iron on annualised basis)
- Raw Material cost: was higher due to higher production and rise in coking coal consumption cost
- Other Expenses: decreased upon stabilisation of NINL operations and lower consumables
- EBITDA: stood at Rs 166 crores vs. Rs 2 crores in 4QFY23

Tinplate Company of India Limited

Key operating parameters

Good

88

IQFY24

Note : CRM – Cold Rolled Mill, tFP – ton of finished product, CO₂ emission intensity calculated as per worldsteel methodology

TATA

TATA STEEL

Tinplate Company of India Limited

(All figures are in Rs. Crores unless stated otherwise)	1QFY24	4QFY23	1QFY23
Total revenue from operations	914	1,033	1,007
Raw material cost ¹	708	672	884
Change in inventories	(19)	51	(225)
Employee benefits expenses	38	38	39
Other expenses	180	190	188
EBITDA	14	88	125
EBITDA per ton (Rs.) ²	1,531	8,385	17,380
EBITDA Margin (%)	1%	9%	12%
Reported PAT	3	57	85

1. Raw material cost includes raw material consumed

2. EBITDA/Steel deliveries

Key drivers for QoQ change:

 Revenues: decreased primarily due to lower sales volumes on QoQ basis
Raw Material cost: was higher on QoQ basis
 Change in Inventories: decreased as usually there is a drawdown in 4Q followed by built up in 1Q
 Other Expenses: were lower QoQ due to lower maintenance related expenses
 EBITDA: stood at Rs 14 crores and Rs 1,531 on per ton basis

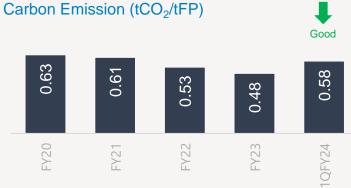

Tata Metaliks

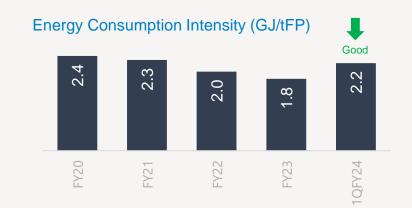

Key operating parameters

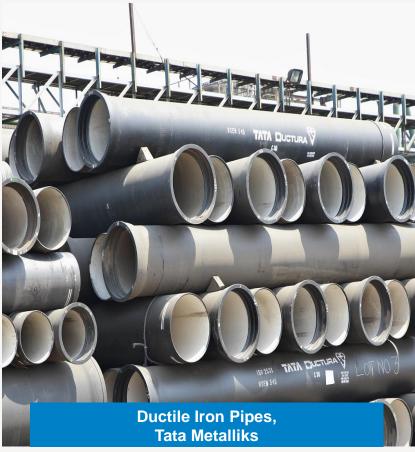

Note : tFP - ton of finished product, CO₂ emission intensity calculated as per worldsteel methodology

Tata Metaliks Limited (All figures are in Rs. Crores **1QFY24 4QFY23 1QFY23** unless stated otherwise) 654 930 669 **Total revenue from operations** 574 Raw material cost¹ 396 531 13 12 (73) Change in inventories Employee benefits expenses 42 47 38 200 147 164 Other expenses 97 EBITDA² 39 27 3,853 6,430 2,391 EBITDA per ton (Rs.)³ 6% EBITDA Margin (%) 10% 4% 5 56 **Reported PAT** 1

1. Raw material cost includes raw material consumed

2. EBITDA = PBT + Interest + Depreciation

3. EBITDA/Total deliveries

4. DIP – Ductile Iron Pipe

Key drivers for QoQ change:

 Revenues: decreased mainly on account of lower deliveries. DIP⁴ share of total revenues increased QoQ
 Raw Material cost: was lower inline with production and decline in coking coal consumption cost
 Employee benefit expenses: was marginally lower as there were wage arrears in 4QFY23
 Other Expenses: declined on lower consumables and freight related costs
 EBITDA: margin was at 6%, translating to Rs 39 crores

Tata Steel Thailand

(All figures are in Rs. Crores unless stated otherwise)	1QFY24	4QFY23	1QFY23
Saleable Steel production (mn tons)	0.26	0.31	0.31
Deliveries (mn tons)	0.27	0.31	0.31
Total revenue from operations	1,472	1,786	1,966
Raw material cost ¹	878	1,171	1,591
Change in inventories	138	76	(189)
Employee benefits expenses	56	51	53
Other expenses	372	430	360
EBITDA	30	57	150
EBITDA per ton (Rs.)	1,146	1,827	4,891

1. Raw material cost includes raw material consumed, and purchases of finished and semi-finished products

Key drivers for QoQ change:

- **Deliveries:** were lower on QoQ basis inline with production
- **Revenues:** decreased on lower volumes and steel realisations
- EBITDA: decreased on QoQ basis
