Dear Madam, Sirs,

**Sub: Disclosure under Regulation 30 of Securities and Exchange Board of India
(Listing Obligations and Disclosure Requirements) Regulations, 2015**

Details of the litigation are provided in the table below:

Particulars	Details
Brief details of litigation viz. name(s) of the opposing party, court/ tribunal/ agency where litigation is filed, brief details of dispute/litigation.	<p><u>Opposing party</u> : Stichting Frisse Wind.nu (hereinafter referred to as 'SFW') <u>Court</u> : District Court North Holland, location Haarlem <u>Details</u> : On December 19, 2025, SFW served a writ of summons on two subsidiaries of Tata Steel Limited, viz., Tata Steel Nederland B.V. and Tata Steel IJmuiden B.V. (collectively referred to as TSN). The proceedings initiated by SFW concern a collective action under the Dutch Act on Collective Settlement of Mass Claims (WAMCA). In this action, SFW states that it is acting on behalf of residents living in the vicinity of TSN. The proceedings pertain to allegations by SFW, holding TSN liable for alleged damages caused by TSN's operations in Velsen-Noord (including, most importantly, emissions of hazardous and/or harmful substances). TSN is fully prepared to defend against the claim. In our assessment, SFW faces considerable challenges regarding both admissibility and the merits of its case.</p>

Particulars	Details
	<p>Although, TSN is yet to receive the exhibits on which SFW intends to rely, TSN has already identified substantial grounds for defence.</p>
Quantum of claims (if any)	<p>SFW seeks approximately EUR 1.4 billion in compensation on account of increased susceptibility to various health issues and the loss of enjoyment of homes, as the average home value in the region demonstrably lags behind that of comparable regions.</p> <p>According to TSN, SFW has provided no supporting evidence for the claim, making it unsubstantiated and speculative. TSN rejects their claims being without any basis.</p> <p>According to SFW, the class action is financed by Redbreast Associates N.V. and Omni Bridgeway S.A, both of which are third party funders.</p> <p>SFW also published a Dutch Claim Code 2019 'compliance statement', in which it explains the compensation structure for the financiers [in short: either (i) a multiple of the financiers' investments or (ii) a percentage of any funds collected up to a maximum of 25%].</p>
Expected financial implications, if any, due to compensation, penalty etc./quantum of claims, if any	<p>The proceedings under the WAMCA regime are conducted in two phases: (a) admissibility, and (b) merits. Each of phase will take approximately 2 to 3 years to conclude.</p> <p>As the proceedings are initiated under the WAMCA regime, the debate on the quantum of claims is not expected in the upcoming years.</p> <p>TSN considers that it has strong arguments to defend against the claims and will vehemently defend itself against these claims.</p>

Particulars	Details
	<p>Health and a clean-living environment remain key priorities for TSN, as they do for local residents and stakeholders. Through substantial investments outlined in Roadmap+, TSN has achieved significant improvements in areas of concern for the neighbouring community over the past five years. Additionally, TSN consistently ranks among the leading global blast furnace-based steel producers in terms of CO₂ efficiency, with performance metrics well below both European and global averages.</p> <p>TSN continues to invest and work on initiatives to enhance the healthy living environment and to reduce impact of operations on the surrounding community in IJmuiden. TSN values feedback and suggestions regarding all aspects of its influence on the neighbouring areas and is committed to continuous improvement beyond legal requirements.</p> <p>As part of the Green Steel Plan, developed through a Joint Letter of Intent with the Dutch Government, the Company and TSN have engaged with stakeholders to define additional targeted measures that extend further beyond legal requirements.</p> <p>Alongside decarbonization initiatives intended to promote a healthier living environment, TSN is dedicated to minimizing its contributions to coarse and fine particulate matter (PM10) emissions, as well as reducing annual releases of substances of very high concern, NO_x, SO₂, odours, and noise. Through these initiatives, TSN seeks to enhance the living environment in the IJmond region. TSN continues to work collaboratively with the local residents and remains committed to improving the environment standards even further.</p> <p>Given these efforts, TSN believes that SFW's claim lacks merit.</p>

Particulars	Details
	TSN is committed and will continue to focus on environmental preservation and addressing community concerns through collaboration with the Government and other stakeholders towards a sustainable future for all stakeholders.

The Company was examining the documents provided by SFW, was in discussion with counsels and assessing the potential implications of claim. Accordingly, this disclosure is being made as of the even date.

This disclosure is being made by the Company in compliance with Regulations 30 and 51 read with Para B of Part A of Schedule III of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, read with related SEBI Circulars issued in this regard.

This is for your information and records.

Thanking you.

Yours faithfully,
Tata Steel Limited

Parvatheesam Kanchinadham
Company Secretary and Chief Legal Officer
