

TSL/SBBD/EMD/2026-27/16  
18<sup>th</sup> May 2026

**The Deputy Director General of Forests (C)**  
Integrated Regional Office  
Ministry of Environment, Forest and Climate Change,  
Kendriya Bhawan, 5th Floor, Sector "H", Aliganj,  
Lucknow – 226020

**Subject: Half Yearly EC Compliance Status of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh for the period October 2025 to March 2026**

**Reference:** EC vide letters no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024

Dear Sir/Madam,

This has reference to the captioned subject and cited reference. We are herewith submitting six monthly compliance status report for the conditions stipulated in the Environment Clearance of 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad for the period from October 2025 to March 2026 along with monitoring report for your kind consideration.

The copy of above compliance report is also being sent in soft format through email ([ecz.iko-mef@nic.in](mailto:ecz.iko-mef@nic.in), [monitoring-ec@nic.in](mailto:monitoring-ec@nic.in)) for your kind perusal. Also copy of EC compliance is being uploaded on MoEF&CC website on portal <http://environmentalclearance.nic.in>.

Hope, the above are in line with the statutory requirements.

Thanking You.

Yours Faithfully,  
**For, Tata Steel Limited**

Chandra Prakash  
(Chief- CRM & Tubes, Sahibabad)

Encl: As above

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh.  
MoEF&CC File no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024.**

<b>Sl. N.</b>	<b>EC Conditions</b>	<b>Compliance Status</b>
<b>1.</b>	<b>Specific Conditions</b>	
1.1	This Environmental clearance is granted subject to final outcome of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, if any, as may be applicable to this project.	Agreed to Comply. We are abiding by all the applicable compliance conditions made by nodal bodies.
1.2	The PP shall strictly comply with the Directions issued by the Commission for Air Quality Management in National Region and Adjoining Areas.	Agreed and complied. All the applicable directions issued by the Commission for Air Quality Management in National Region and Adjoining Areas are implemented.
1.3	In pursuance to MoEF&CC OMs dated 31st October, 2019 & 30th December, 2019 issued in compliance of the order of Hon'ble NGT in OA No. 1038/2018 dated 19th August, 2019, the compliance of all the conditions applicable to CEPI shall be implemented as per the submitted plan.	Agreed and complied. Applicable conditions of CEPI are implemented.
1.4	The industry shall use PNG gas as per direction no. 64 of the Commission for Air Quality Management in National Region and Adjoining Areas by 30.09.2022.	Complied. We are using PNG for plant operation.
1.5	The PP shall strictly implement the mitigation measures to minimise the ambient air pollution so that the Air Quality Data will be as per notified Standards.	Complied. We have implemented mitigation measures in our process and operations to minimize or prevent the ambient air pollution.
1.6	The project proponent shall comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project shall be implemented.	Complied. We have implemented the environmental protection measures and safeguards proposed in the documents submitted to the Ministry and the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project are being ensured.
1.7	The project proponent shall utilize modern technologies for capturing of carbon emitted and shall also develop carbon sink/carbon sequestration resources capable of capturing more than emitted. The implementation report shall be submitted to the IRO, MoEF&CC in this regard.	Complied. We have implemented various energy efficiency projects to reduce energy consumption and carbon emission per metric tonne of production. Yearly report on implemented Energy efficiency projects in Form-3 is being submitted to relevant nodal agencies. Aside, We are developing and maintaining a green belt on the allotted land of Ghaziabad Nagar Nigam.
1.8	Ghaziabad is at a distance of 1 km and other sensitive areas such as Health centers, Schools etc. within the study area of the project site. Proponent shall take appropriate environmental safeguard measures to minimise the impact on the habitation of the locals. The project proponent	Complied. We have taken and implemented all the appropriate environmental safeguard measures to minimize the impact on the local habitations. We are developing and maintaining a green belt in and outside the plant premises. We have

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh.  
MoEF&CC File no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024.**

	needs to strengthen green belt all around the plant area to reduce the dust pollution. The PP shall also include some of these locations in its environmental monitoring programme.	conducted Environmental Monitoring at different locations in plant area through NABL accredited laboratory. Ambient air quality reports for the period March 2026 attached as <b>annexure-1</b> .
1.9	As reported, Hindon Cut is at a distance of 1.5 km, eastern Yamuna Canal at 2 km along with other water bodies within the study area of the project site. A robust and full proof Drainage Conservation scheme to protect the natural drainage and its flow parameters; along with Soil conservation scheme and multiple Erosion control measures shall be implemented.	Complied. We have implemented the necessary measures to protect and maintain the flow of natural drainage.
1.10	Approved Management plan for Okhla Bird Sanctuary shall be strictly implemented.	Being Complied. Applicable conditions of approved management plan of Okhla Bird Sanctuary are ensured and followed at unit level.
1.11	The water requirement of 1962 KLD, is proposed to be obtained from ground water. PP shall obtain necessary permission from the Competent Authority. Also as committed, PP shall undertake gradual phasing out of groundwater and switch to alternate source of water.	Complied. We have obtained NOC for GW drawl of 1530 KLD from Uttar Pradesh Ground Water Department (UPGWD). We have made an agreement with Ghaziabad Nagar Nigam (GNN) for the supply of STP Treated water for plant operation and have started utilisation of STP recycled water. GW NOC copy attached as <b>annexure-2</b>
1.12	Three tier Green Belt shall be developed in atleast 40% of the project area in a period of 1 year of adequate width and tree density shall not be less than 2500 per ha. Survival rate of green belt developed shall be monitored on periodic basis to ensure that damaged plants are replaced with new plants in the subsequent years. PP shall develop greenbelt in the form of shelter belt comprising of total of 6 rows of 2x2 m plantation with tall trees & broad leaves with thick canopy along with windshield inside the plant premises to act as green barrier for air pollution & noise levels towards sensitive areas nearby project site. Compliance status in this regard, shall be submitted to concerned Regional Office of the MoEF&CC.	Complied. Green Belt has been developed on the existing available patches of land inside the plant premises as well as outside the plant premises on the allotted land by Ghaziabad Nagar Nigam. Efforts are being put to maintain and plant more no. of saplings to go beyond the compliance requirement of 40 percentage (7.12 ha) of the total existing plant area of 17.8 ha. Details attached as <b>annexure-3</b>
1.13	All the commitments made towards socio-economic development of the nearby villages shall be satisfactorily implemented. The action plan based on the social impact assessment study of the project as per the EMP in accordance to the Ministry's OM dated 30.09.2020 shall be strictly implemented and progress shall be submitted to the Regional Office of MoEF&CC.	Being complied. We have implemented multiple development programs in nearby village under CSR initiatives. Report Attached as <b>annexure-4</b> .

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh. MoEF&CC File no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024.**

1.14	The project proponent shall undertake village adoption program and prepare and implement the action plan to develop them into a model village.	Being complied. We have initiated and implemented various development program in nearby village. Report Attached as <b>annexure-4</b> .
1.15	The recommendations of the approved Site-Specific Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report to the concerned Regional Office of the MoEF&CC.	A Management plan for Okhla Bird Sanctuary (2022-23 to 2031-32) has been prepared by Divisional Forests Officer, Gautam Budh Nagar and same has been approved from Principal Chief Conservator of Forest, Wildlife, Uttar Pradesh vide letter no. 3115/ 23-7-9, Lucknow dated 26th May 2022
1.16	Tree Plantation to be developed in 7.12 Ha and the same should be taken up under #एक पेड़ माँ के नाम campaign and their survival be ensured.	Complied. We have planted above 96000 Saplings under the campaign #एक पेड़ माँ के नाम in FY 25 & in FY 26.

**Standard EC Conditions**

**1. Specific Conditions**

1.1	The Environment Clearance (EC) granted to the project/ activity is strictly under the provisions of the EIA Notification, 2006 and its amendments issued from time to time. It does not tantamount/ construe to approvals/ consent/ permissions etc., required to be obtained or standards/conditions to be followed under any other Acts/Rules/Subordinate legislations, etc., as may be applicable to the project.	Agreed to comply. We abide all the applicable conditions as stipulated in the Acts/Rules/Subordinate legislation.
1.2	This Environmental clearance is granted subject to final outcome of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, if any, as may be applicable to this project.	Agreed to Comply.

**2. Air Quality Monitoring And Preservation**

2.1	The project proponent shall install 24x7 continuous emission monitoring system at process stacks to monitor stack emission as well as 04 Nos. Continuous Ambient Air Quality Station (CAAQMS) for monitoring AAQ parameters with respect to standards prescribed in Environment (Protection) Rules 1986 as amended from time to time. The CEMS and CAAQMS shall be connected to SPCB and CPCB online servers and calibrate these systems from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories. (case to case basis small plants: Manual; Large plants: Continuous and their no's.)	Being Complied. We have installed CEMS at Pickling, ARP and Boiler stacks and connected it with CPCB/SPCB server. Unit has installed 01 No. of Continuous Ambient Air Quality Station (CAAQMS) for the monitoring of AAQ parameters with respect to standards prescribed in Environment (Protection) Rules 1986 as amended from time to time. Connectivity of CAAQMS to CPCB/SPCB server has been initiated and is Under progress. Unit have also conducted manual Environment monitoring through NABL accredited laboratory. Analysis report for the period of March 2026 attached as <b>annexure-1</b> .
2.2	The project proponent shall carryout Continuous Ambient Air Quality monitoring for common/criterion parameters relevant to the main	Being Complied. We have installed 01 No. of Continuous Ambient Air Quality Station (CAAQMS) for the monitoring of AAQ

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh.  
MoEF&CC File no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024.**

	pollutants released (e.g. PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the plant area (at least at four locations one within and three outside the plant area at an angle of 120° each), covering upwind and downwind directions.	parameters with respect to standards prescribed in Environment (Protection) Rules 1986 as amended from time to time and conducted manual Ambient Air Quality monitoring at 4 locations covering upward and downward location.
2.3	The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through laboratories recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.	Complied. Monitoring in the plant premises are being done through NABL accredited laboratory.
2.4	Sampling facility at process stacks and at quenching towers shall be provided as per CPCB guidelines for manual monitoring of emissions.	Complied. Sampling facility for manual monitoring of emissions at process stacks are provided as per the CPCB guidelines.
2.5	Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed stack emission and fugitive emission standards.	Complied. We have installed appropriate Air Pollution Control (APC) system (e.g. Wet Scrubbers at Pickling and ARP unit) so as to comply prescribed stack emission standards. Stack monitoring report for the period of March 2026 attached as <b>annexure 1</b> .
2.6	The project proponent shall provide leakage detection and mechanized bag cleaning facilities for better maintenance of bags.	<b>Not Applicable.</b> Stipulated condition is applicable to Bag filters type of APCD.
2.7	Sufficient number of mobile or stationery vacuum cleaners shall be provided to clean plant roads, shop floors, roofs, regularly.	Complied. We have deployed road sweeping machine to improve housekeeping in plant area.
2.8	Ensure covered transportation and conveying of raw material to prevent spillage and dust generation. The project proponent use leak proof trucks/dumpers carrying coal and other raw materials and cover them with tarpaulin.	Complied. Compliance to the condition has been ensured. Though we are not using or conveying the raw materials like Coal, we have made necessary arrangements and facility for tarpaulin cover.
2.9	The project proponent shall provide primary and secondary fume extraction system at all heat treatment furnaces.	Complied. We have installed the fume extraction system at all processes.
2.10	Wind shelter fence and chemical spraying shall be provided on the raw material stock piles.	<b>Not applicable.</b> No Stockpiles available in the plant premises.
2.11	Design the ventilation system for adequate air changes as per prevailing norms for all tunnels, motor houses, Oil Cellars.	Complied. We have provided adequate ventilation system in oil cellars to increase air circulation.
2.12	Pollution control system in the plant shall be provided as per the CREP Guidelines of CPCB.	Complied. We have provided adequate Pollution control devices as per CPCB/SPCB guidelines.
2.13	The project proponent shall adopt the Clean Air practices like mechanical collectors, wet scrubbers, fabric filters (bag houses), electrostatic precipitators, combustion systems (thermal oxidizers), condensers, absorbers, adsorbers, and biological degradation. Controlling emissions	Complied. We have provided adequate Pollution control devices to arrest pollutants generated due to operation. We have also started using Natural Gases as a cleaner fuel in our Boilers and Furnaces. In a green initiative, we have started using EV vehicles for the Transportation

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh.  
MoEF&CC File no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024.**

	related to transportation shall include emission controls on vehicles as well as use of cleaner fuels. Sufficient numbers of additional truck mounted Fog/Mist water cannons shall be procured and operated regularly inside the project premises and also in the surrounding villages to arrest suspended dust in the atmosphere.	of Goods and materials. We are using water sprinklers inside the plant premises to suppress any dust due to vehicular movement.
2.14	Bag filters shall be cleaned regularly and efficiency of bag filter system shall be monitored at regular intervals.	<b>Not applicable.</b> Bag Filters are not available/ installed.
2.15	Water Sprinklers/Water mist system shall be installed near raw material yards, operational units and other strategic locations to control fugitive emissions from the plant.	<b>Not applicable.</b> We are operating cold rolling mill and using Hot rolled coil as a raw material.
2.16	The particulate matter emissions from the process stacks shall be less than 30 mg/Nm <sup>3</sup> and measures shall be undertaken as per the submitted action plan. Efficient Air monitoring equipment shall be installed.	Complied. We have started using Natural Gas as fuel hence particulate matter emissions are well under the prescribed norms. Stack Monitoring report of period March 2026 attached as <b>annexure 1</b> .
2.17	Following additional arrangements to control fugitive dust shall be provided: a. Fog / Mist Sprinklers at all on bulk raw material storage area (at the transfer points) like Iron Ore, Coal and for Fly Ash and similar solid waste storage areas. b. Proper covered vehicle shall be used while transport of materials. c. Wheel washing mechanism shall be provided in entry and exit gates with complete recirculation system.	<b>Not applicable.</b> We are operating cold rolling mill and using Hot rolled coil as a raw material.
<b>3. Water Quality Monitoring And Preservation</b>		
3.1	The project proponent shall install 24x7 continuous effluent monitoring system with respect to standards prescribed in Environment (Protection) Rules 1986 as amended from time to time and connected to SPCB and CPCB online servers and calibrate these system from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.	Complied. We are achieving Zero Effluent Discharge (ZED). Aside, the Continuous effluent quality monitoring systems (CEQMS) are in place to monitor and control the quality of effluent and improve the effectiveness of treatment processes. CEQMS is connected to CPCB /SPCB Server.
3.2	The project proponent shall monitor regularly ground water quality at least twice a year (pre- and post monsoon) at sufficient numbers of piezometers/sampling wells in the plant and adjacent areas through labs recognized under Environment (Protection) Act, 1986 and NABL accredited laboratories.	Complied. Ground water quality is being monitored on half yearly basis (Pre and Post Monsoon) through NABL accredited lab. Ground water Report attached as <b>annexure-1</b> .
3.3	Garland drains and collection pits shall be provided for each stock pile to arrest the run-off in the event	<b>Not Applicable.</b> Stockpile is not available in plant area.

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh.  
MoEF&CC File no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024.**

	of heavy rains and to check the water pollution due to surface run off.	
3.4	Water meters shall be provided at the inlet to all unit processes in the steel plants.	Complied. Water meters are installed at all major inlet point of unit processes.
3.5	The project proponent shall make efforts to minimize water consumption in the steel plant complex by segregation of used water, practicing cascade use and by recycling treated water.	Complied. We have installed and Operating ZED plant to reuse and recycle maximum quantity of generated Effluent. As well as we have started utilisation of STP recycled water of Ghaziabad Nagar Nigam to significantly reduce the use of Fresh water consumption.
3.6	The proposed project shall be designed as Zero Liquid Discharge Plant. ETP shall be installed and there shall be no discharge of effluent from the plant. Domestic effluent shall be treated in Sewage Treatment Plant. Suitable measures shall be adopted for sewage water handling to ensure no contamination of any kind of water body.	Complied. We are achieving Zero Effluent Discharge (ZED). We have installed 800 KLD capacity ETP and 60+140 KLD capacity STP Plant followed by ZED (750 KLD) to treat the effluent and sewage generated in plant premises and reuse back in process after treatment. Aswell as we are ensuring precautionary measures while handling sewage water, to avoid contamination of any water body.
3.7	All stockyards shall have impervious flooring and shall be equipped with water spray system for dust suppression. Stock yards shall also have garland drains and catch pits to trap the run off material and shall be implemented as per the action plan submitted in EIA/EMP report.	Complied. We are operating cold rolling mill and using Hot rolled coil as a raw material. Though, we have made arrangements to store the raw material and our finish good products under cover shed and on impervious flooring.
3.8	Rain water harvesting shall be implemented to recharge/harvest water as per the action plan submitted in the EIA/EMP report.	Complied. We have installed and maintained rainwater harvesting structure inside the plant premises, as well as ponds have been adopted to catch runoff. Photographs attached as <b>annexure 5</b> .
<b>4. Water Quality Monitoring And Preservation In Case Of Rolling Mills</b>		
4.1	The project proponent shall provide the ETP for effluents of rolling mills to meet the standards prescribed in G.S.R 277 (E) 31st March 2012 (applicable to IF/EAF) as amended from time to time. (in case of rolling mills)	Complied. We have installed and operate 800 KLD capacity ETP followed by ZED plant (750 KLD capacity) for effective treatment and maximum recovery.
4.2	Cold Rolling Mill (CRM), color coating and galvanizing plants shall have CETP to treat and recycle the treated water from CRM complex. Sludge generated at CRM ETP shall be sent to TSDF. (in case of cold rolling mills)	Complied. We have installed and operate 800 KLD capacity ETP followed by ZED plant (750 KLD capacity) for effective treatment and maximum recovery. Generated Sludge is being sent to TSDF for Disposal/pre-processing.
<b>5. Noise Monitoring And Prevention</b>		
5.1	Noise pollution shall be monitored as per the prescribed Noise Pollution (Regulation and Control) Rules, 2000 and amendments thereof, and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.	Complied. Noise level monitoring is being done through NABL accredited laboratory. Monitoring report attached as <b>annexure 1</b> .

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh.  
MoEF&CC File no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024.**

5.2	The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time.	Complied. Ambient Noise levels are within the prescribed standard and monitoring is being done through NABL accredited laboratory.
<b>6. Energy Conservation Measures</b>		
6.1	Provide solar power generation on roof tops of buildings, for solar light system for all common areas, street lights, parking around project area and maintain the same regularly;	Complied. We have installed and maintain 100.4 KVA rooftop solar panel to promote renewal energy initiatives.
6.2	Provide LED lights in their offices and residential areas.	Complied. We have installed LED light in plant as well as office area to reduce power consumption.
<b>7. Waste Management</b>		
7.1	Oil Collection pits shall be provided in oil cellars to collect and reuse/recycle spilled oil. Oil collection trays shall be provided under coils on saddles in cold rolled coil storage area.	Complied. We have made oil collection pit in cellars and same has been reused and transfer into barrel and sent to PCB approved recycler.
7.2	Kitchen waste shall be composted or converted to biogas for further use.	Complied. Compost machine has been installed to convert Canteen generated Biodegradable waste in compost.
7.3	100% utilization of fly ash shall be ensured. All the fly ash shall be provided to cement and brick manufacturers for further utilization and Memorandum of Understanding in this regard shall be submitted to the Ministry's Regional Office.	<b>Not Applicable.</b> Fly ash not generated.
7.4	The Plastic Waste Management Rules 2016, inter alia, mandated banning of identified Single Use Plastic (SUP) items with effect from 01/07/2022. In this regard, CPCB has issued a direction to all the State Pollution Control Boards (SPCBs)/Pollution Control Committees (PCCs) on 30/06/2022 to ensure the compliance of Notification published by Ministry on 12/08/2021. The technical guidelines issued by the CPCB in this regard is available at <a href="https://cpcb.nic.in/technical-guidelines-3/">https://cpcb.nic.in/technical-guidelines-3/</a> . All the project proponents are hereby requested to sensitize and create awareness among people working within the Project area as well as its surrounding area on the ban of SUP in order to ensure the compliance of Notification published by this Ministry on 12/08/2021. A report, along with photographs, on the measures taken shall also be included in the six monthly compliance report being submitted by the project proponents.	Complied. We have provided awareness training among the people working within the project area as well as local surrounding area towards ban on single use plastic. Photographs attached as <b>annexure 06</b> .
7.5	A proper action plan must be implemented to dispose of the electronic waste generated in the industry.	Complied. We have engaged PCB approved recycler/refurbisher for recycling of generated e-waste.
<b>8. Green Belt</b>		

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh. MoEF&CC File no. IA-J-11011/497/2021-IA-II(IND-I) Dated 09.07.2024.**

8.1	The project proponent shall prepare GHG emissions inventory for the plant and shall submit the programme for reduction of the same including carbon sequestration by trees.	Being Complied. GHG emission inventory is being maintained at plant. We have engaged resources to develop and maintain a green belt on 7.12 Ha of land, that will support as a sink and helps to sequesterate the emitted carbon.
8.2	Project proponent shall submit a study report on Decarbonization program, which would essentially consist of company's carbon emissions, carbon budgeting/ balancing, carbon sequestration activities and carbon capture, use and storage and offsetting strategies. Further, the report shall also contain time bound action plan to reduce its carbon intensity of its operations and supply chains, energy transition pathway from fossil fuels to Renewable energy etc. All these activities/ assessments should be measurable and monitor able with defined time frames.	Complied. Company's (i.e. Tata Steel Limited) consolidated decarbonization program has been framed which includes timebound strategies to offset emitted carbon and reduce carbon intensity. To support and monitor the progresses, we have conducted study through Bureau of Energy efficiency (BEE).
8.3	Greening and Paving shall be implemented in the plant area to arrest soil erosion and dust pollution from exposed soil surface.	Complied. We have implemented initiatives on greening and paving the available patch of plant area to arrest soil erosion.
<b>9. Public Hearing And Human Health Issues</b>		
9.1	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.	Complied. We have implemented Emergency Preparedness Plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan.
9.2	The project proponent shall carry out heat stress analysis for the workmen who work in high temperature work zone and provide Personal Protection Equipment (PPE) as per the norms.	Shall be complied. We are identifying the work zone vulnerable to high temperature for heat stress analysis. If necessitates, we will conduct the study. We ensure that the Workmen working in the plant premises must wear the applicable PPE's. Regular training on safety aspects are also being imparted through various medium.
9.3	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP. Safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	<b>Not Applicable.</b> The industry is in operation since 1990 and no residential facility available in plant area.
9.4	Occupational health surveillance of the workers shall be done on a regular basis and records maintained.	Complied. Occupational health surveillance of the workers is being done on a regular basis and records are maintained at Plant OHC.
<b>10. Environment Management</b>		
10.1	The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 30/09/2020. As part of Corporate Environment Responsibility (CER)	Complied. We have implemented multiple programs in nearby surrounding area under CSR initiative for upliftment of people and community. Report Attached as <b>annexure 4.</b>

**Compliance Status of Environmental Clearance for Regularization of existing production facilities for 0.91 MTPA Cold rolled strips & sheets (1250 MT/Day) and Galvanized plain/corrugated sheets (1250 MT/Day) at Plot no-23, Site-IV, Industrial Area, Sahibabad, District Ghaziabad, Uttar Pradesh.
