

TSN WIRES COMPANY LIMITED

FINANCIAL STATEMENTS

31 MARCH 2026

Independent auditor's report

To the Shareholders of TSN Wires Company Limited

My opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of TSN Wires Company Limited (the Company) as at 31 March 2026, and its financial performance for the year then ended in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities (TFRS for NPAEs).

What I have audited

The Company's financial statements comprise:

- the statement of financial position as at 31 March 2026;
- the statement of income for the year then ended;
- the statement of changes in equity for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of my report. I am independent of the Company in accordance with the Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (TFAC Code) that are relevant to my audit of the financial statements and I have fulfilled my other ethical responsibilities in accordance with the TFAC Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRS for NPAEs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The accompanying notes are an integral part of these financial statements.

1 General information

TSN Wires Company Limited (the Company) is a limited company incorporated and resident in Thailand. The address of the Company's registered factory and office are as follows;

Factory - 199 Moo 11, WHA Rayong Industrial Land, Nonglalo, Bankhai, Rayong 21120.

Office - 555 Rasa One (Building A), 14th floor, Phaholyothin Road, Chatuchak, Bangkok 10900.

The principal business operation of the Company is the manufacture and sales of steel wires and galvanised steel wire products.

The Company's major shareholder is The Siam Industrial Wire Company Limited which is incorporated in Thailand and owns 100% of the Company's shares (31 March 2025: 60%).

The Company's financial statements were authorised for issue by the authorised directors on 18 May 2026.

2 Significant accounting policies

2.1 Basis of preparation

These financial statements have been prepared in accordance with the Thai Financial Reporting Standards for Non-Publicly Accountable Entities as issued by the Federation of Accounting Professions. Additional recognition and disclosures are made following the principle concept of Thai Financial Reporting Standards ;

- Income Taxes

The financial statements have been prepared under the historical cost convention.

An English language version of the financial statements has been prepared from the statutory financial statements that are in the Thai language. In the event of a conflict or a difference in interpretation between the two languages, the Thai language statutory financial statements shall prevail.

2.2 Foreign currency translation

Items included in the financial statements of the Company are measured using Thai Baht. The financial statements are presented in Thai Baht.

Foreign currency transactions are translated into Thai Baht using the exchange rates prevailing at the date of the transaction.

At the end of each reporting period, foreign currency monetary balances are translated by using the exchange rate at the closing rate. Non-monetary balances denominated in a foreign currency are carried at cost using the exchange rate at the date of transaction.

Gains and losses resulting from the settlement of foreign currency transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of income.

2.3 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call, short-term highly liquid investments with maturities of three months or less from acquisition date.

2.4 Trade receivables

Trade receivables are initially recognised at the original invoice amount and subsequently measured at the remaining amount less any allowance for doubtful receivables based on a review of all outstanding amounts at the year end. The amount of the allowance is the difference between the carrying amount of the receivable and the amount expected to be collectible. Doubtful debts and bad debts are written off during the year in which they are identified and recognised in the statement of income.

2.5 Inventories

Inventories are stated at the lower of cost or net realisable value. Cost is determined by the weighted average method. The cost of purchase comprises both the purchase price and costs directly attributable to the acquisition of the inventory, such as import duties and transportation charges, less all attributable discounts, allowances or rebates. The cost of finished goods and work in process comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). Net realisable value is the estimate of the selling price in the ordinary course of business, less the costs of completion and selling expenses. The amount of any write down of inventories to net realisable value is recognised as an expense in the period the write down occurs and presented as cost of sales.

2.6 Property, plant and equipment

An item of property, plant and equipment is stated at cost less any accumulated depreciation and any allowance for decrease in value (if any).

The cost of an item of property, plant and equipment comprises its purchase price, import duties and non-refundable purchase taxes (after deducting trade discounts and rebates) and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. These can include the initial estimate of costs of dismantling and removing the item, and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period.

The cost of replacing parts of property, plant and equipment is included in the carrying amount of the asset when it is probable that future economic benefits will flow to the Company and the carrying amount of those replaced parts is derecognised. Repairs and maintenance are charged to the statement of income during the financial period in which they are incurred.

Depreciation is calculated on the straight-line basis to write off the cost of each asset, except for land which is considered to have an unlimited life, to its residual value over the estimated useful life as follows:

Land improvement	15 - 20 years
Buildings	10 - 20 years
Building improvement	10 - 20 years
Machinery and equipment	5 - 20 years
Tools and spare parts	5 - 10 years
Furniture, fixtures and office equipment	3 - 5 years

The assets' residual value, useful lives, and depreciation method are regularly reviewed.

Whenever there is any indication showing a permanent decrease in the amount of plant and equipment; such as an evidence of obsolescence or physical damage of an asset, significant changes in the manner in which an asset is used or is expected to be used, the Company shall recognise loss on decrease in value of the asset in statement of income where the carrying amount of asset is higher than its selling price less costs to sell or its value in use.

2.7 Intangible assets

Computer software

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised using the straight line basis over their estimated useful lives of 10 years.

Costs associated with maintaining computer software programmes are recognised as an expense as incurred.

2.8 Leases - where a Company is the lessee

Leases of property, plant or equipment which substantially transfer all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value of the leased property or the present value of the minimum lease payments. Each lease payment is allocated to the principal and to the finance charges so as to achieve a constant rate on the finance balance outstanding. The outstanding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged to the statement of income over the lease period so as to achieve a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant or equipment acquired under finance leases is depreciated over the shorter period of the useful life of the asset or the lease term.

Leases not transferring a significant portion of the risks and rewards of ownership to the lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of income on a straight-line basis over the period of the lease.

2.9 Borrowings

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date or it does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. If the borrowings do not meet the criteria as aforementioned, the borrowings are classified as non-current liabilities.

Borrowing costs are recognised by using the effective interest method.

2.10 Provident fund

The Company established a contributory registered provident fund, in accordance with the Provident Fund Act B.E. 2530 by joining a registered-pooled fund approved by Ministry of Finance. The fund are held in a separate trustee - administered fund.

Under the provident fund plan, all employees are member of the provident fund and must contribute 2.00 to 15.00 percent of their basic salary and the Company also contributes 3.00 to 10.00 percent of their basic salary depend on year of service. The fund appointed a fund manager to manage the fund in accordance with the terms and conditions prescribed in the Ministerial Regulations issued under the Provident Fund Act B.E. 2530.

The Company's contributions to the provident fund are charged to the statement of income in the year to which they relate.

2.11 Current and deferred income taxes

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of reporting period in the countries where the company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised, using the liability method, on temporary differences arising from differences between the tax base of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2.12 Provisions

2.12.1 Employee benefits obligations

a) Short-term employee benefits

Liabilities for short-term employee benefits such as wages, salaries, paid annual leave and paid sick leave, profit-sharing and bonuses, and medical care that are expected to be settled wholly within 12 months after the end of the period are recognised in respect of employees' service up to the end of the reporting period. They are measured at the amount expected to be paid.

b) Defined contribution plan

The Company pays contributions to a separate fund in accordance with the Provident Fund Act B.E. 2530 by joining a registered-pooled fund approved by Ministry of Finance. The fund are held in a separate trustee - administered fund.

The Company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

2.12.1 Employee benefits obligations

c) Defined benefit plans

Amount of retirement benefits is defined by the agreed benefits the employees will receive after the completion of employment. It usually depends on factors such as age, years of service and an employee's latest compensation at retirement.

The defined benefit obligation is calculated by an independent actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using market yield of government that matches the terms and currency of the expected cash outflows.

Remeasurement gains and losses are recognised directly to profit or loss in the period in which they arise. They are included in retained earnings in the statements of changes in equity.

Past-service costs are recognised immediately in profit or loss.

d) Other long-term benefits

The Company gives gold rewards to employee who works for the specified year of service.

These obligations are measured similar to defined benefit plans except remeasurement gains and losses that are charged to profit or loss.

2.12.2 Provisions - others

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

2.13 Revenue recognition

Revenue comprises the fair value for consideration received or receivable for the sale of goods and service net of value added tax, returns, rebates and discounts. Revenue from sales of goods is recognised when significant risks and rewards of ownership of the goods are transferred to the buyer. Services income is recognised as revenue in the period in which they are rendered.

Interest income and other revenues are recognised on an accrual basis.

2.14 Accounting for derivatives

The Company is party to derivative financial instruments, which mainly comprise foreign currency forward contracts. Such instruments are not recognised in the financial statements on inception.

Foreign currency forward contracts protect the Company from movements in foreign exchange rates. Gains or losses from settlement of each foreign currency forward contract shall be recognised as gains or losses from foreign currency forward contracts as incurred.
